

Steel Cycle Storage

Pluto Shelter

OLLERTON

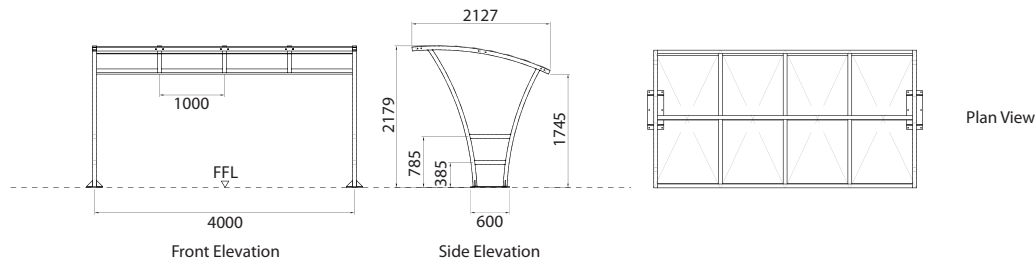

Pluto Cycle Shelter

The Pluto is an extremely functional and robust shelter. It has a design which allows it to be installed in confined spaces to allow for parking of 10-20 cycles or motor scooters. The shelter itself is flexible enough to be used as either a stand alone unit or as part of a compound.

- **Cycle Storage:** Single unit or compound for up to 10 to 100+ cycles. For Cycle stands we recommend Sheffield cycle stands or motor scooters stands to expand the capabilities of the shelter.
- **Options:** PET cladding, 4m extension modules.

- **Size:** 4m x 2.1m standard. 2m - 5m modules available.
- **Material:** Hollow box section manufactured from structural grade mild steel.
- **Finish:** Options include; 1. Galvanised, 2. Galvanised and powder coated. 3. Zinc rich primer and top powder coated using the Akzo Nobel Cromadex Extra Life System.
- **Warranty:** 10 year paint warranty.
- **Installation:** Surface or base plate fixed.
