

CYCLE STANDS

GEO

Marshall's
Creating Better Spaces

With a rise in the percentage of people choosing to use a bike as their method of commuting or travel, the inherent demand for secure storage increases. The Geo cycle stands have been designed in a discreet, low profile and visually elegant form to ensure multiple racks can be installed to nominal aesthetic compromise.

The Geo cycle stands are made entirely of 316 grade stainless steel. The Pennant has an immaculate brushed finish, whereas the Hoop contrasts a brushed top section with a bead blasted lower. Both finishes ensure minimum aesthetic degradation over years of metallic contact.

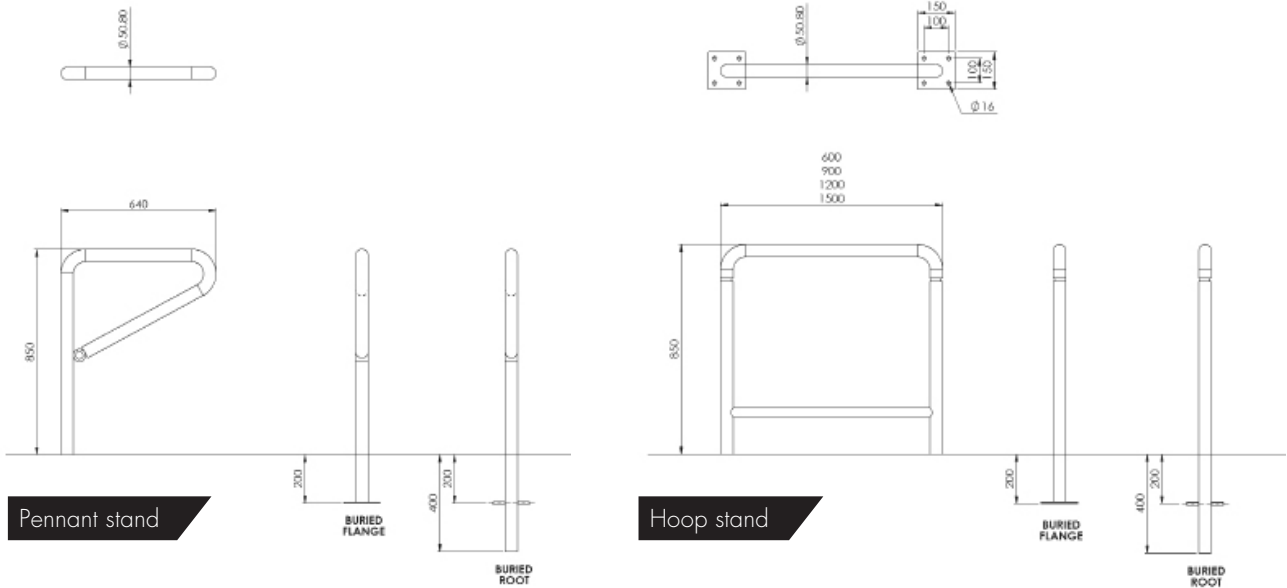

They also offer a robust level of security and locking positions for all types of cycle.

Pennant stand

Hoop stand
