

Plastic Planters

Heritage NEW!

Heritage Square Planter

- Free standing traditional planters are sturdy, attractive and manufactured to be of low cost and maintenance, ideal in brightening up any public space.
- The clever capillary matting indicates the planters lasting days without watering, saving a substantial amount of utility costs.
- It is made of 100% recyclable material, making it environmentally friendly.
- Its design features unique "soft edge sides" and "rain groove" features.
- Thanks to its solid body colour, it will keep on looking strong and beautiful, as any potential marks from bumps or scratches are minimised.
- Other colours available on request (traditional, bold or stone colours).
