slim geometry

crystal

A fully enclosed all-steel litter bin of geometric shape and steadily firm construction evokes the impression of a rather elegant bollard. The triple litter bin for sorted waste is a variation which is in constant demand. Moreover, the version for the collection of dog excrements with integrated space for special plastic bags smartly addresses the current problem experienced by most contemporary cities. For smokers, a large ashtray is now available.

Galvanized steel structure painted with powder coating finish. Stainless steel cigarette extinguisher with ashtray in the top part of the bin. Galvanized steel inner bin. Forward opening lockable door. Possibility of anchoring to concrete base.
