convincingly simple

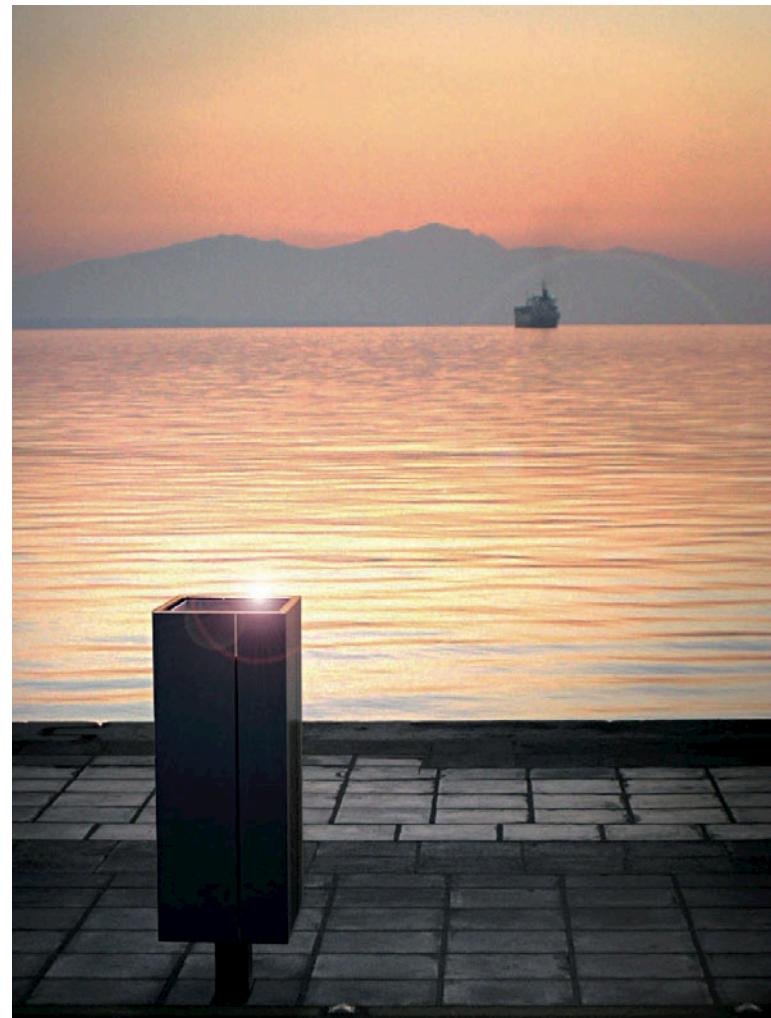

nanuk

Formally extremely sparing, structurally simple, materially diverse – an example of smart design that delivers one of the widest ranges of litter bins with a fresh, attractive appearance. Cylinder and cuboid, two basic geometric shapes situated on a central leg with several types of cladding for truly universal usage. A cylinder with pleasant-looking wooden siding, the block additionally including bent reinforced steel sheet, transparent steel lathing, or interior-smooth high pressure laminate (HPL). Cuboid versions may also be fitted with an elegant canopy.

Awarded the title "Czech Grand Design" Producer of the Year 2012

The unified galvanized steel frame sprayed with powder baked coating carries a sheathing which consists of grooved wooden siding, galvanized steel sheet, stainless steel sheet, or galvanized steel lathing. All steel parts are coated with powder paint finish. Another option is a sheathing of high-pressure laminate.
