The Challenge

Attractive & functional paving required for Student Village.

IDPartnership sought a hard landscaping solution for Portland Green, a new £20 million student village comprising student accommodation and retail space in Shieldfield, Newcastle upon Tyne that would be both attractive and functional.

David Moore, Senior Associate at IDPartnership, explained that the landscape design concept for the outdoor space at the student accommodation complex was to *“provide quality hard landscaping around the building and in the centrally located courtyard at a reasonable cost.”*

The Solution

Tobermore Sienna, Fusion, Shannon & Country Kerb block paving.

Tobermore’s Sienna and Fusion ranges, both with natural granite aggregates were chosen for external walkways. The smooth finish of Shannon block paving in warm heather tones was the ideal choice for the courtyards and commercial spaces.

On reflection of the completion of phase two of this project, David Moore said, *“I’m very happy with the products supplied by Tobermore, so much so, that we are already using more products on the next two phases. We would recommend Tobermore for any type of project.”*
