The Challenge

Creative paving solution required for Seamus Heaney Homeplace in Bellaghy.

W & M Given Architects were assigned the prestigious task of designing a new arts and literary centre in Bellaghy, that celebrates the life and literature of the late Nobel laureate Seamus Heaney. The architect was determined to create a striking tribute that would do the memory of Seamus Heaney justice.

Phillip Hutchinson, Partner at W & M Architects explained the external works objective, *“We wanted a product that would provide scope and flexibility to define shapes and routes within the site. Due to the large open areas within the site, it was important that we specified a product that would allow us to be creative and allow the spaces to be broken up by planting and create a good palette of colours for visual contrast.”*

The Solution

Fusion and Sienna Setts with Mayfair Flags.

Having worked with Tobermore on numerous projects over the years, W & M Given was confident that Tobermore would have an appropriate hard landscaping solution that would achieve the desired result. Tobermore did not disappoint and provided the architect with a combination of fabulous Fusion and sparkling Sienna Setts block paving with modern Mayfair Flags to create a striking, contemporary landscape design.
