

Ventilation grilles for installation into walls, ceilings or rectangular ducts

Type AR

Return air grilles, made of aluminium, with fixed angled horizontal blades

Single return air grilles

- Nominal sizes 150 × 100 – 1200 × 600 mm
- Volume flowrate maximum 1202 l/s or 4327 m³/h
- Grille face made of aluminium with powder-coat finish
- Front border, 32 mm wide
- Visible screw fixing as standard

Optional equipment and accessories

- Grille face in RAL CLASSIC colours
- Attachments for opposed blade action volume control
- Screw fix border and border without punching available

Description

Application

- Ventilation grille of Type AR as extract air variant for comfort zones and industrial zones
- Blades at a fixed angle to block view
- For variable and constant volume flows
- For installation in walls, ceilings and rectangular ducts

Variants

Front Border

- AR: 32 mm wide

Fixing

- 0: Countersunk holes
- X: Without holes (border drilling by customer)

Parts and characteristics

- Angled front border with chamfered inside edge
- Fixed horizontal blades
- Factory fitted perimeter seal

Nominal sizes

- Nominal length: 150mm up to 1200mm (50mm increments)
 - Nominal height: 100mm up to 600mm (50mm increments)
- Intermediate sizes upon request

Attachments

- AG: For volume flow control

Special characteristics

- Fixed blades
- Angled front border
- Countersunk holes

Construction features

- 32 mm wide border
- Fixed angle horizontal blades

Materials and surfaces

- Border and blades made of aluminium
- P3: Border and blades powder-coated, RAL9010:20%
- P6: Powder-coated RAL CLASSIC colour. Gloss level: 25%

Installation and commissioning

- Installation preferably in walls, ceilings and rectangular ducts
- Ideally the border should be fixed with screws

Standards and guidelines

- Sound power level of the air-regenerated noise measured according to EN ISO 5135

Maintenance

- Maintenance-free as construction and materials are not subject to wear
- Inspection and cleaning to VDI 6022

Technical data

Nominal sizes	150 × 100 to 1200 × 600 mm
Maximum volume flow rate, with L_{WA} max. 40 dB(A) without attachments	1202 l/s or 4327 m ³ /h

Volume flow rates for single grille for extract air.

Nomenclature

L_{WA} [dB(A)]

Sound power level of the air-regenerated noise

Δp_t [Pa]

Total differential pressure

\dot{V} [m³/h] and [l/s]

Volume flow rate

Ventilation grilles for installation into walls, ceilings or rectangular ducts

Quick sizing

Sizing with the help of this catalogue

This catalogue provides convenient quick sizing tables for ventilation grilles. The volume flow rates apply to a nominal grille length [L] of 1000mm, maximum sound power level of the air-regenerated noise of 40 dB(A) with an open damper unit (unrestricted airflow) and maximum 20 Pa pressure drop.

Technical data

The table gives extract air volume flow rates, based on l/s/m for a maximum 5Pa, 10Pa, 15Pa or 20Pa limit.

Maximum sound power level of the air-regenerated noise of 40 dB(A) with an open damper unit (unrestricted airflow)

Standard text

This specification text describes the general properties of the product.

Ventilation grilles, rectangular, made of aluminium, for supply and extract air. Rectangular profile border. Preferably for wall and ceiling installation but also suitable for rectangular ducts. Ready-to-install component which consists of a border and fixed horizontal blades. Countersunk holes for fixing onto an installation surface. Sound power level of the air-regenerated noise measured according to EN ISO 5135.

Technical data

- Nominal sizes: 150 × 100 to 1200 × 600 mm
- Maximum volume flow rate (extract air):
1202 l/s or 4327 m³/h
at L_{WA} max. 40 dB(A) without attachments

Special characteristics

- Fixed blades
- Front border
- Countersunk holes

Sizing data

- \dot{V} _____ [l/s]
- Δp_t _____ [Pa]
- L_{WA} Air-regenerated noise _____ [dB(A)]

Materials and surfaces

- Border and blades made of aluminium
- P3 : Border and blades powder-coat RAL9010:20%
- P6: Powder-coated RAL CLASSIC colour.
Gloss level: 25%

Attachments

Types -AG

AG

Attachments for ventilation grilles, made of sheet steel, for volume flow rate balancing and air direction control

Attachments with manually adjustable blades

- Volume flow rate balancing
- Air direction control

Type		Page
-AG	General information	AR – 15
	Special information – -AG	AR – 16

Description

Application

- Attachments for ventilation grilles offer additional functions
- For volume flow rate balancing and/or for air direction control
- Damper units simplify the volume flow rate balancing required for commissioning, for supply air and extract air
- Ventilation grille need not be removed for adjustment

Variants

- AG: Damper unit with opposed action blades

Maintenance

- Maintenance-free as construction and materials are not subject to wear
- Inspection and cleaning to VDI 6022

Any accessories are defined with the order code of the ventilation grille.
