

Roundabouts

Age range 2 to adult

Wicksteed - Naturally

No playground is complete without one, so here are some exciting contemporary designs based on this traditional and much loved concept.

We also choose to continue marketing our timeless styles of traditional roundabouts, which are well known and still loved by so many and the Sputnik and the Whirly Bird can therefore be found in the Heritage section of this product book.

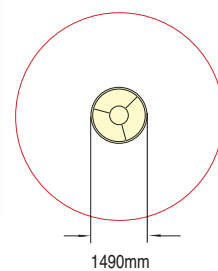

NEW Dual Axis Roundabouts

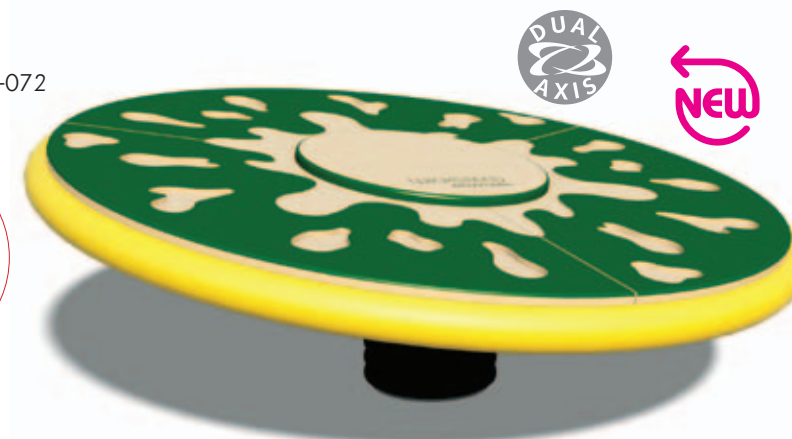

Our dual-axis bearing mechanism - unique to Wicksteed - means that it can both rotate and rock - helping children to develop their sense of balance. They are a range of 'rock and rollers' which are **easily interchangeable**, enabling different designs to be installed into different parks and subsequently be interchanged - thus providing alternative play experiences at no additional capital cost!

Dizzy

Product code 6020-072

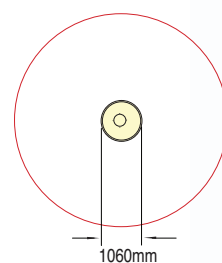

Wet Pour Safety Surfacing
1.0m FFH: 24m² x 40mm

Rock'n'Bowl

Product code 6020-071
