The Forest
Range
Age range 8 to adult

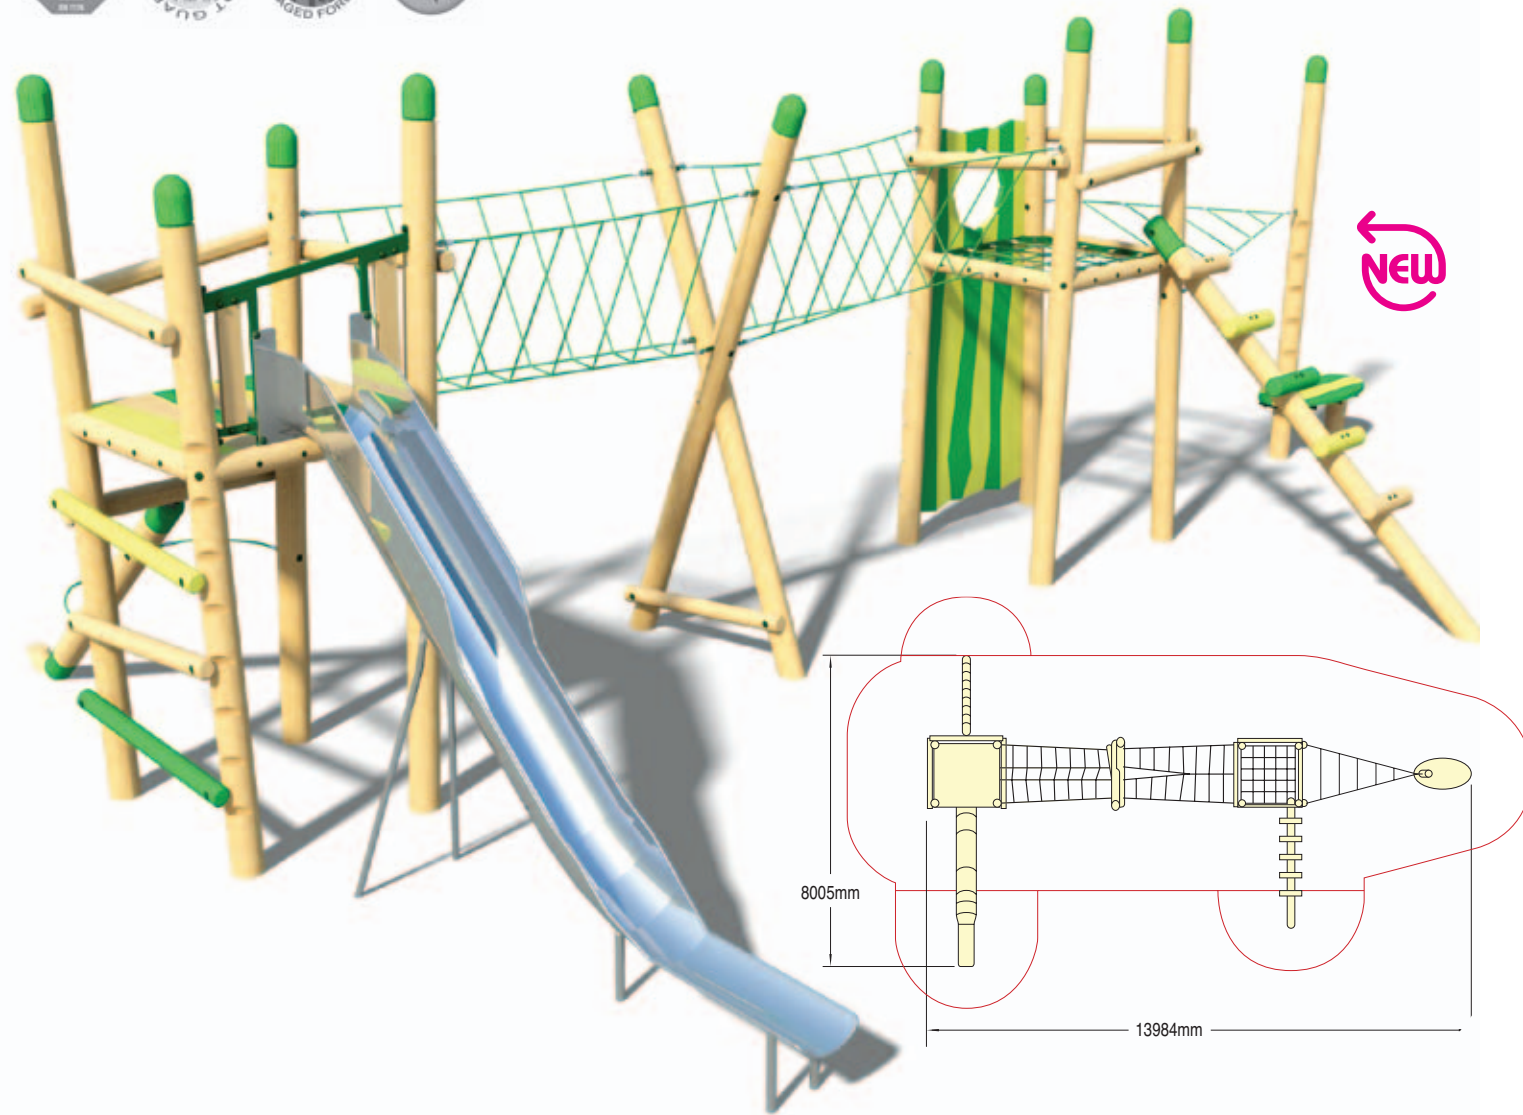

Wicksteed - Naturally

The Forest range of huge timber structures creates a fantastic centre piece within play areas. Scarily high, chunky and quirky in design – with all the uprights, access and egress points deliberately angled, this exciting range offers tricky challenges and conjures up a true sense of adventure and high spiritedness. The Forest range is modular with a selection of set units, but the

features can be ordered in bespoke arrangements to suit individual requirements.

The structural timber is 200mm diameter medium-density pine sourced from FSC managed forests. The timber is pressure treated using a micronized osmosis process, thus enabling Wicksteed to guarantee the timber structure against rotting for 15 years.

Kielder

Product code: 6180-KIE

10 Play Features

- Log Balance Climber
- Square Net Deck
- Climbing Wall
- Twisted Horizontal Net Outrigger c/w Chill-Out Zone
- Double V Bridge
- Open Slide
- Square Deck
- Log Roller
- Vertical Log Ladder
