Age range 2 to adult

Wicksteed - *Naturally*

Swinging is as popular a pastime now as it ever was and our contemporary swing designs bring the swinging sensation children love into today's playgrounds.

A range of timber swings are also available, which fit naturally into rural areas. These can be found in the Timber section of this product book.

We also choose to continue marketing our timeless styles of Traditional swings, which are well known and still loved by so many, and these can be found in the Heritage section of this product book.

This photograph shows a rubber chain cover. Hurricane swing chains now have our Twist Link Safety Chains as standard – as shown on page 88

Product code 6020-070

Wet Pour Safety Surfacing
1.6m FFH: 84m² x 60mm

Flexi-Swings

Wicksteed Flexi-Swings are a unique design involving very few fixings, with the result that they are virtually maintenance free. As the name suggests, the engineering design enables complete flexibility in their designs - allowing us to configure an unlimited amount of swing combinations. Examples are shown on these pages, but if you require an alternative configuration please let us know.

These Flexi-Swings retain our innovative rotating swing bearings and twist-link safety chains.

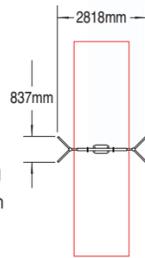

Shown here are examples of our 2450mm (8') high Flexi-Swings. They are also available in heights of 1850mm (6') and 3050mm (10') options

Swing Seats

Flat Safety Seat

Product code 5901-002

Swing safety features and anti-vandal components

Key Link

The Key Link connects the chains to the shackles. It has been specially developed to make height adjustment very easy.

Rotating Swing Bearings

All Wicksteed Flexi-Swings are fitted with Rotating Swing Bearings as standard to eliminate the problem of tangled chains.

Cradle Safety Seat

Product code 5901-048

Safety Barrier

Product code 5901-030

Safety Barriers help stop children walking into the path of moving swings and, used at playground entrances and exits, they slow children down.

Twist Link Safety Chain

Our 8mm Twist Link Safety Chains provide a safe and comfortable grip and are standard on our Hurricane Swings

Basket Seat for Flexi-Swing

Product code 5084-019

Basket Seat for Pendulum Swing
