The Mini Forest
Range

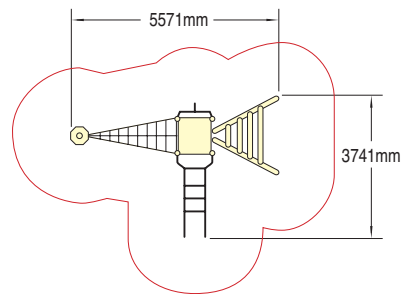

Age range 4 to 8

Wicksteed - *Naturally*

The Mini Forest range has been designed and developed to complement the main Forest range and has similar attributes but on a smaller, more manageable, scale for younger children from 4 to 8 years.

Shown here is a selection of pre-designed units, but bespoke configurations can be designed to suit individual requirements.

The structural timber for this mini range is 125mm diameter medium-density pine sourced from FSC managed forests. Pressure treated using a micronized osmosis process, enables Wicksteed to guarantee the structural timber for 15 years against rotting.
