

Perimeter Fencing Systems:
Duo® Perimeter

A true leader in its field

NEW - Duo6 now available as a 3m wide panel
Our most economical fencing solution

The Duo system uses a continuous clamp bar to cover the panel ends. This means there are no exposed panel edges on which people might snag themselves and also makes levering the panels away from the post extremely difficult.

Our most popular perimeter fencing, Duo, combines a perfectly engineered robust design with a low visual impact that will blend into almost any situation.

Manufactured from twin horizontal wires sandwiching a single vertical wire, the system offers a high level of vandal resistance and 'best value'. The system is available as Duo6 using 6mm horizontal wires or where extra strength is required, Duo8 that uses 8mm horizontal wires. Widely specified across the country in both the private and public sector, Duo has proven itself time and again.

Our 3m wide panel Duo6 option uses the ZaubFix clip system (see page 63) to provide one of the most economical perimeter fencing systems on the market.

Twin horizontal wire construction

Specifications

Height Available	Mesh Pattern	Horizontal Wires	Vertical Wires	Post Centres	Panels fixed to posts
0.43 - 6.13m	200 x 50mm	Duo6 (6mm) Duo8 (8mm)	Duo6 (5mm) Duo8 (6mm)	2.525m or 3.025m 2.525m	Fixings every 400mm
