

HiSec Spider

Features & Benefits:

- Manufactured to the traditional 358 mesh pattern regularly associated with prisons
- The tight welded mesh offers no climbing aids and mitigates attack by hand and powered tools
- Open mesh pattern provides excellent visibility
- Single panel heights can be supplied of up to a maximum of 3 metres
- Panel is overlapped and fixed to posts using a spider clip fixing
- Available either bolt down, in ground or on wall

Applications:

-  Civic & Public Sector
-  Health & Emergency Services
-  High Security
-  Industrial
-  Schools & Education
-  Transport & Infrastructure
-  Utilities

Description:

Zaun's **HiSec Spider** perimeter security fencing uses the popular '358' welded mesh configuration to repel thieves, trespassers and intruders. The **HiSec Spider** attributes make this system an excellent solution for high security applications. The close-mesh configuration ensures that the **HiSec Spider** system is difficult to climb, highly secure and visually appealing.

Using our Spider clip fixing system, **HiSec Spider** is a more cost effective way to fix high security panels than a full length clamp bar yet still works to mitigate the risk of potential attack. For high security sites, the panels are overlapped and the panel ends are held against the post by a front plate which makes levering the panels off very difficult. The **HiSec Spider** system is available up to 3 metres high in a single panel.

To ensure we are able to supply a complete, single solution, pedestrian and vehicle access solutions have been carefully designed to address both aesthetical requirements along with ensuring the same security level of the mesh is maintained. The system is also ideal for integrating with CCTV, PIDs and security topping enhancements such as barb and razor coils, all of which can be supplied as part of a complete turnkey solution.

Details:

Minimum height of 600mm to maximum height of 3.0 metres – HiSec Perimeter Fencing

Mesh:

HiSec mesh comprising of 12.7mm x 76.2mm mesh with single 4mm vertical wires at 76.2mm centres and 4mm horizontal wires at 12.7mm centres.

Posts:

Various RHS post sizes dependent on height (see chart below for details), spaced at 2440mm centres

Post to panel fixing:

Panels fixed to posts with spider clips with bolt fixings at 400mm centres.

Gates:

Pedestrian gates are single leaf 1.2m wide, (or width to suit), framed in a 50mm x 50mm RHS with Zaun HiSec mesh bolted onto the frame using the Zaun picture frame design, with slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Vehicle access gates are double leaf (single leaf vehicle gates available) 3.0m wide (or width to suit), framed in 50mm x 50mm RHS, with Zaun HiSec mesh bolted onto the frame using the Zaun picture frame design, with drop bolts and slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Finish:

Materials are galvanised and Polyester Powder coated.
