

StyleGuard-BT

Description

The StyleGuard-BT is a general-purpose bow top railing system that is seen the length and breadth of the UK. It's ideally suited to schools, play areas, commercial business centres, retail outlets and public spaces with a low to medium security risk. Available in heights up to 3m and manufactured from rigid and durable materials, the StyleGuard-BT combines a classic, attractive aesthetic with effective demarcation performance.

The bow top posts are secured in concrete or base plated to surface mounting and comes with heavy duty welded steel caps to ensure resiliency and resistance against vandalism.

The StyleGuard-BT can be tailored to your requirements and is available in a wide range of colours, sizes and materials. For a different look, Barkers' bow top can be amended to have extra bars and bows. They can also be set in an interlaced pattern.

StyleGuard-BT Key Features

- Low to medium risk
- Attractive, classic single lace bow top design
- Available in heights up to 3m
- Secure in concrete or base plated to surface mounting
- Heavy duty welded steel caps for resistance against antisocial behaviour
