

CS™ **Supertrak® Plus**
Cubicle Curtain Track

C/S SUPERTRAK® PLUS CUBICLE CURTAIN TRACK

Cubicle curtain systems provide an easy to install and cost-effective partitioning method in multi-bed hospital wards, which helps to offer some privacy to patients and staff. They can also be used as screening in retail/leisure changing rooms and shower areas.

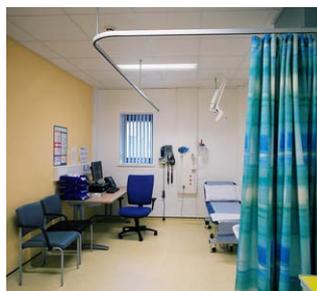

C/S Supertrak® Plus combines a totally rigid structure with the flexibility of configuration to meet individual requirements. It has been used in hospitals, health centres, leisure centres and hotels throughout the world for over 40 years.

The system has been upgraded to bring additional benefits to end users, maintenance teams and installers, whilst still conforming to HTM 66, 2005. The overall durability has been improved in order to reduce ongoing maintenance costs and a number of Supertrak® components have been re-designed to make them faster and simpler to install. C/S track is now available in two standard lengths to reduce wastage on site and eliminate unnecessary joints.

The powder coat finish of the track is aesthetically pleasing and easy to clean. The system is offered in two standard colours to suit project requirements, or can be ordered in any BS, RAL or custom colour subject to quantity.

COMPANY PROFILE

Construction Specialties operates through 22 offices worldwide, and has key manufacturing locations or Sales Offices in most European countries.

The UK Head Office, based in Buckinghamshire, is the sales and manufacturing hub for servicing markets across the UK, Ireland, Nordic Countries, Latvia, Estonia and Malta through a network of experienced and professional technical sales representatives.

Our product ranges include wall protection systems, entrance matting systems, specialist coatings for walls and floors, expansion joint covers, solar shading, cubicle curtain track, louvres and pressure relief systems.

These have been successfully installed in many of the world's most prestigious buildings, across a spectrum of business sectors including healthcare, transport, retail, leisure and commercial offices.

KEY FEATURES

- Modular system allowing flexibility of configurations to satisfy individual requirements
- Rigid and durable
- Glides run smoothly and quietly
- Runner access points enable curtains to be changed easily
- Metal components are powder coated to provide an aesthetic and easy to clean finish
- Available in two standard colours: White RAL 9003 and Grey RAL 7040, or can be powder coated to any BS, RAL or custom colour subject to quantity
- Anti-ligature components available
- Conforms to HTM 66 - 2005*

* The Health Technical Memorandum 66 (2005) provides guidance for the design and specification of cubicle curtain track for healthcare facilities. The HTM 66 is published by The Stationery Office www.tso.co.uk/bookshop

SUPERTRAK® COMPONENTS

TRACK AND ACCESSORIES

TRACK

Track is available in 3 and 4 metre lengths to suit project requirements and minimise wastage on site.

STA-001 - Track Length 3m

STA-002 - Track Length 4m

END CAP

Used to close off track end. Push-fit design ensures a neat finish without any gaps where dust or dirt could accumulate.

STA-007 - End Cap

TRACK INC. RUNNER ACCESS

STA-005

Runner Access allows for easy access when inserting or removing curtains (as required by HTM 66, 2005).

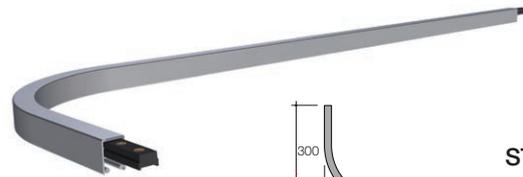

Runner Access Button can be purchased as a separate part, alternatively Runner Access can be incorporated into lengths of track for ease of assembly (Runner Access is positioned 150mm from the track end as standard).

STA-003 - 3m Track Length inc. Runner Access

STA-004 - 4m Track Length inc. Runner Access

STA-005 - Runner Access Button

BENDS - 90° AND 135°

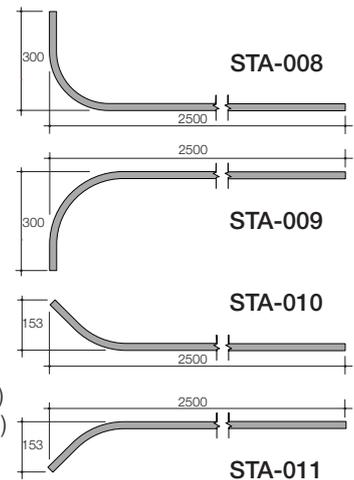

Available in 90° and 135° options as standard, bends are supplied complete with Inner Connecting Pieces for connecting them to other track parts.

STA-008 - 90° Bend (LH)

STA-009 - 90° Bend (RH)

STA-010 - 135° Bend (LH)

STA-011 - 135° Bend (RH)

FIXING COMPONENTS

ROD SUSPENDER

An aluminium rod located in Ceiling/Track Bosses.

STA-016 - 1m Rod Suspender

V-HANGER

When no suitable wall fixing is available, V-Hanger is used instead of Rod Suspender to prevent lateral sway. Fixed to the track and to the ceiling via Ceiling/Track Bosses.

STA-022 - V-Hanger 1m drop

DIRECT CEILING FIXING

Supertrak® Plus can be fixed directly to the ceiling soffit by means of concealed screws (by others) located at 1m centres.

INNER CONNECTING PIECE

Used to connect longer sections of track.

STA-012 - Inner Connecting Piece

JUNCTION

Used for linking adjacent cubicles where a return is necessary at the front of the track.

STA-013 - Junction

GLIDE AND HOOK

Manufactured from self-lubricating nylon, which doesn't require any maintenance, Glides & Hooks are available in packs of 50. Recommended usage is 10 no. per metre.

C/S Hooks have been designed to suit most types of disposable curtains used in hospitals. Where curtains are supplied with pre-fixed Hooks & Glides, many of them will also fit C/S track. Please ensure compatibility before ordering.

STA-006 - Glides and Hooks - 50 pack

T-PIECE

Acts as a junction where tracks are joined at 90°.

STA-014 - T-Piece

OVERLAPPING JOINT

Links adjoining cubicles at the front of the track.

STA-015 - Overlapping Joint

WALL BRACKETS

A selection of brackets is available to fix the track to the wall in a suspended system.

STA-019 - Wall Bracket
Used to fix the track end to the wall at 90°. Also used to create a tie-bar providing lateral restraint.

STA-020 - Parallel Wall Bracket
Used where support is required when the track end returns parallel to a wall.

STA-021 - Adjustable Wall Bracket
For situations where the angle between the wall and the track is not 90°.

ANTI-LIGATURE

Anti-ligature suspension components and wall fixings are available with C/S Supertrak® Plus and will securely hold the track and the curtain. When an abnormal load is applied, the anti-ligature components release their load. This can happen time after time without the decline in performance of the system. Contact us for further information.

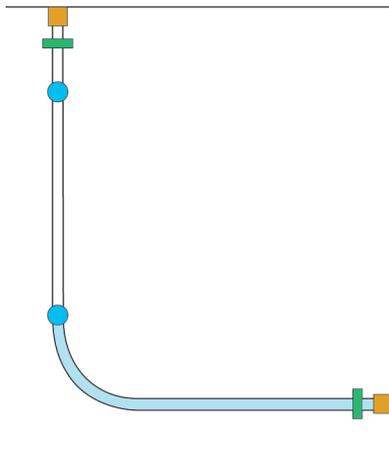

NOTE: Supertrak® Plus components are supplied complete with all fixings required to assemble the system. Wall/ceiling fixings are not supplied.

BED LAYOUTS

C/S Supertrak® Plus is a modular system, which can be used in a multitude of configurations to suit project requirements.

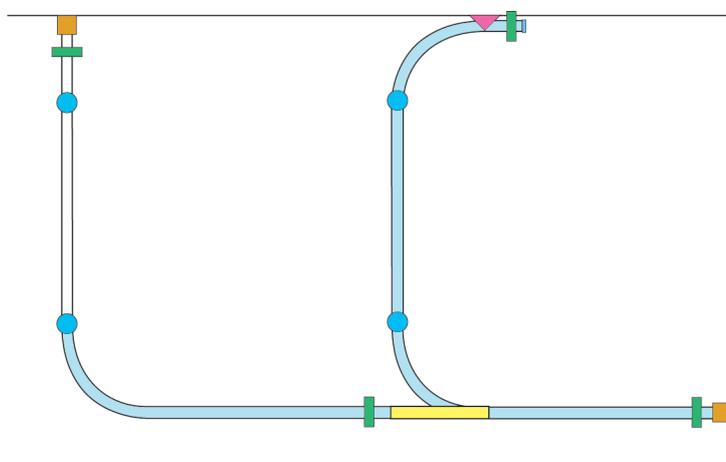

Layouts shown below indicate the possible positions of Supertrak® Plus components in different bed layouts and are intended as a guide only.

SINGLE BED LAYOUT

-  **STA-001 or STA-002** - Track Length
-  **STA-008 or STA-009** - 90° Bend
-  **STA-015** - Overlapping Joint
-  **STA-005** - Runner Access Button
-  **STA-016** - Rod Suspender
-  **STA-019** - Wall Bracket
-  **STA-020 or STA-021** - Wall Bracket
-  **STA-007** - End Cap
-  **STA-014** - T-Piece

TWO BED LAYOUT

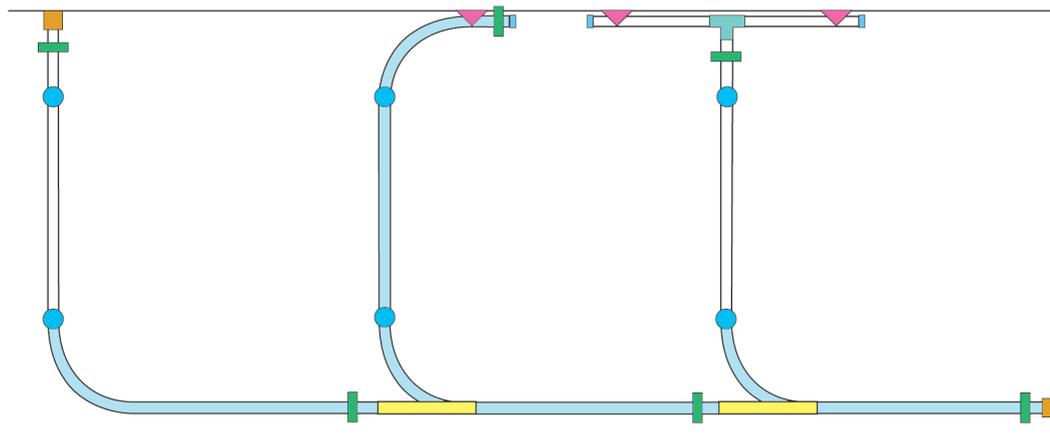

If cubicle length is in excess of 2.8m, we recommend that additional Rod Suspenders should be positioned 1m from the wall.

OUR SERVICE

C/S TECHNICAL SUPPORT

We look forward to assisting you with any queries which you may have and ensuring that you have made the right selection for your project. Call us on +44 (0)1296 652800 to speak with our Customer Service Team, Technical Team or Area Representatives.

C/S SPECIFICATION SUPPORT

NBS specification clauses are available on request, contact us for specification assistance.

NBS Specification Clauses for C/S products are also available on NBS Plus.

SAMPLES SERVICE

Please contact our Customer Service Team for the samples you require.

INSTALLATION SERVICE

C/S offer a complete installation package through our sister company Conspec Contracts Limited. They provide full site surveys, implement installation programmes and advise upon suitability of material.

Conspec's experienced installation teams are CSCS accredited.

For further information please contact our Customer Service Team or visit our website: www.c-sgroup.co.uk

WARRANTY POLICY

Construction Specialties (UK) Ltd. (the Company) warrants to its purchasers that their Supertrak Plus products sold will be free from any defects in materials or workmanship and will meet the design criteria noted in our brochures when properly installed and maintained. If, in the sole opinion of the Company, a product covered by this warranty is defective, the Company will replace or repair it free of any charge. This warranty shall extend for a period of two years following the date of shipment by the Company. This is in lieu of all other warranties expressed or implied, and is the sole warranty extended by the Company. The liability of the Company under this warranty is limited to repair or replacement, and does not include any responsibility for consequential or other damage of any nature.

Disclaimer

The company reserves the right to make design changes for the purpose of product improvement, or to withdraw any design without notice.
