

Boardwalk, Clapham Common

Details

Client: F M Conway

Location: Clapham Common Mount Pond, Lambeth

Length: 63m

Width 3m

Form: Curved Bespoke Hardwood Boardwalk

Project Description

Having worked together on many recent successful schemes, F M Conway approached CTS to carry out the design, manufacture and installation on site of a new hardwood boardwalk at Clapham Common Mount Pond, Lambeth, London.

The overall length of the boardwalk was 63m with a width of 3m.

The boardwalk was designed by CTS's in house engineers to a live load of 5kN/m² to take crowd loading. Hi-Grip Excel non-slip inserts were used on the deck to give a safe walking surface for the general public.

CTS's installation team prepared the sub-frame for the deck onto a concrete strip footing provided by F M Conway. A hardwood kerb was fitted to the outer edge of the boardwalk.
