

The Neutralizer

Mobile pH Balancing for the Construction Industry

Treats and Balances Highly Caustic Wastewater
Small Footprint
Uses CO₂ in place of Dangerous Chemicals
Fully Automated
Continuous In-line Process
Low Operating Costs
Rugged and Mobile Construction
Hire or Purchase

Caustic wash-out on construction sites is prohibited by the Environment Agency or Water Companies unless it is neutralised before entering the sewer or watercourse.

Smart Storm's NeutraliZer treats caustic waste using CO₂ in place of dangerous acids to ensure the waste water discharge is always at neutral pH.

Using in-line mixing technology, the fully automated system requires little operator interaction other than changing gas bottles. Its rugged build, small footprint and skid mount allows for easy relocation in busy construction sites.

SPECIFICATION:	Weight:	800 kg
	Length:	2875 mm
	Width:	1000 mm
	Height:	1300 mm

CAPACITY: Single pump feed - Max. Flow 5.5 l/s (20m³/hour)

GAS SUPPLY: Bottled CO₂ or approved storage tank

ELECTRICAL FEED: 110V as standard - 240V optional
