Corner beads: CB20

Locally manufactured from recycled plastic, Renderplas PVCu corner beads / angle beads are designed for function and speed on all external and internal rendering and plastering applications. Discreet but strong, all beading gives a perfect finish to through colour render and is equally suitable for sand and cement

formance: c	

Affiliations Federation of Plasterers and Drywall Contractors Fire

Applications All thick coat rendering and internal plastering

applications, external wall insulation

Chemical Zero chemical reaction with water, sand and

cement, acrylic render, water based paint; avoid organic solvents, chlorate bleach, strong acids

and alkalis

Durability Impact resistant; dissipates shock waves; outlasts

metal; cleaned or painted in same way as render

Economics PVCu beads are a fraction of the price of stainless

steel; added value over galvanized steel as PVCu beads are guaranteed not to stain or corrode and can reduce installation time. Reduction of impact

damage

Environment Locally manufactured; high recycled content; fully

recyclable; low Ecopoint score of 0.004/kg

delivered

Class 1Y. Combustible within fire source, self

extinguishing upon removal of flame, will not

contribute to the combustion of the system

Health and Safety PVCu beads are safe to handle removing the dangers of cut metal; suitable for prisons and

schools

Heat Ideal for all habitable climates

Fit for purpose for the lifetime of the render and at Guarantees

least 25 years

Mechanics Meets equivalent British Standard for metal beads

and lath BS EN 13658-2:2005

Pollution Ecologically benign; non-hazardous in water;

non-hazardous if ingested; does not release

substances into the atmosphere

Strength PVCu beads offer sufficient strength for these

applications

Weather Not affected by weather and should be specified

6 lengths in triwall fibreboard box

in all regions of high moisture or high salt

Specification: standard data

Weight (kg/100m) 26.2 Type

Authority BBA certified; manufactured to ISO 9001:2000; Stock Colours White, Ivory complies with BS EN 13914-1&2:2005 and BS EN

Lenath 13658-2:2005; fire tested to BS 476; complies

with REACH Format Cut lengths

Brand Names Renderplas 100% Recycled Description 20mm PVCu Corner Beads (Angle Beads)

Content % Composition Exterior grade impact resistant UV stable

Light UV stable; any discoloration is uniform over a unplasticised PVCu single facade and within industry standards

Packaging

Dimensions (mm) 4mm visible arris; 40mm wing Depth (mm) 18-22mm render depth

Site works

Installation Standard industry practice and tools can be used. Storage

Large irregularities in the substrate should be dubbed out and allowed to set hard prior to application. Cut to length with tin snips or fine tooth saw. Fixing with a continuous line of adhesive mortar is preferred on blockwork, or alternatively a bed of render. Non-corrosive mechanical fixings can be used as well but are not required. With external wall insulation, non-

corrosive fixings alone are sufficient.

Store vertically out of direct sunlight or extreme

temperatures. Can be stored flat if supported

along entire length

Ex-stock next day delivery to site through Supply

extensive supply chain or direct from
