

ARCHITECTURAL DETAILS

Stylish Accents for Roofs and Facades

Coming home, feeling good, enjoying each day to the fullest! The feeling of complete and utter relaxation is only possible within the familiarity and intimacy of your own home. An atmosphere is created in which timeless elegance and individual style meld beautifully and effortlessly.

Accessories for Roofs and Buildings. Make a Statement.

People around the world are familiar with RHEINZINK roofs, facades and gutters. But RHEINZINK offers a lot more: feature accents on dormers, chimneys, gables, balconies, canopies and walls are part of architectural diversity – from the conventional to the avant-garde.

Often it's the details that lend diversity and excitement to life. It is also the details which make an architectural design visually appealing. With RHEINZINK, there are a multitude of such attractions – always new, always surprising. Stylistically, it is compatible with virtually every other material; the reserved aesthetics of RHEINZINK never compete with other materials. It blends effortlessly into every architectural environment.

Accessories for your Roof. Continuous Protection.

Accent features can be installed almost anywhere on the roof – on gables, chimneys, canopies, dormers or roof edges. At the same time, they serve to protect the structure of the building.

Continuous protection is an investment in the future, particularly where wind and weather impact your home without hindrance. All RHEINZINK accessories provide protection – not only because of the material – but because they are perfectly coordinated to match existing building components.

Accessories for your Facade. Like a new Garment.

RHEINZINK can make a big difference around your entire home – creating a new perspective – again and again. Accentuate whatever you like: the entrance, the structure, a whole surface!

In choosing the material, you're already decided on the type of look your home will have. With a stylistic mix of materials, you're not just creating new accents time and again: your home will be so much more individual, because of the architectural details. When will your home become an expression of your individuality?

ONE BRAND – 3 PRODUCT LINES

**A perfect solution
for every requirement**

To give you even more design freedom, we offer our material in three different product lines and in numerous finishes. You get the perfect solution for every requirement with the trusted RHEINZINK quality. All products exceed the high standards of EN 988 and the TÜV QUALITY ZINC criteria. The high level of manufacture is guaranteed by constant inspections and extensive laboratory tests. On this double page, we have summarised the characteristic features of our three product lines. On request, we will gladly send you samples of material.

RHEINZINK-CLASSIC

**The natural material
in its most original form**

RHEINZINK-CLASSIC is the most original of all material options. The bright rolled version has proven itself for over 50 years of application. Depending on the weather conditions, over time a typical blue-grey patina is formed on the naturally shiny metallic surface. The patina gradually becomes more and more distinctive and develops a unique surface character.

Surface quality:

RHEINZINK-CLASSIC® bright rolled

RHEINZINK-artCOLOR

**Unlimited design in a variety of
colours**

RHEINZINK-artCOLOR is the coloured version for roofing and facade cladding. A durable coating allows a wide range of colours and opens up a variety of design options for architects, planners, builders and trade customers. Classically elegant, contemporary avant-garde, contrasting or tone-on-tone. If you have a special colour requirement, we will be happy to produce RHEINZINK-artCOLOR in the shade of your choice.

Surface qualities:

RHEINZINK-artCOLOR® black-grey
RHEINZINK-artCOLOR® pure-white
RHEINZINK-artCOLOR® pearl-gold
RHEINZINK-artCOLOR® moss-green
RHEINZINK-artCOLOR® nut-brown
RHEINZINK-artCOLOR® blue
RHEINZINK-artCOLOR® tile-red

prePATINA

THE WORLD'S ONLY NATURALLY PRE-WEATHERED SURFACES

Only RHEINZINK has a special process in which the blue-grey or graphite-grey colour of the natural patina is achieved naturally in production. As the inventors, we called this unique pickling process "pre-weathering". Virtually imperceptible to the human eye, atmospheric influences over time create a natural protective patina that reliably protects the product. In production, any use of artificial coatings, varnishes or phosphating is avoided completely. The prePATINA line products are the only ready-made natural surfaces in the entire global zinc construction market.

Natural weathering compensates for any installation-related scratches. Only the RHEINZINK-prePATINA and the RHEINZINK-CLASSIC lines offer this self-healing effect. They are environmentally friendly and absolutely maintenance-free.

100 % SELF-HEALING
100 % MAINTENANCE-FREE
Only available from RHEINZINK

Surface qualities:

RHEINZINK-prePATINA® blue-grey

RHEINZINK-prePATINA® graphite-grey

Only RHEINZINK with its CLASSIC and prePATINA line
offers three entirely natural material options made with titanium zinc!
