

## MATERIAL FOR GENERATIONS

Suitable for Roofing, Facade Cladding, Roof Drainage Systems  
and Architectural Details

Relax, read, daydream, write letters that are long overdue ... activities that exude calm, peace, and well-being. Take a few moments to retreat into your own space and be at one with yourself.

## Zinc is a Cornerstone of Life. As is RHEINZINK.

Zinc is everywhere – it is a natural part of our environment; a cornerstone of life. For decades now, zinc has played a major role on the international architectural scene as the main component of an innovative contemporary building material: RHEINZINK – an alloy consisting of 99.995% primary zinc and precisely defined amounts of copper and titanium. The name is synonymous with quality and lasting value in the construction field. With RHEINZINK architecture becomes gains in value.

Are you planning to install a new roof, a drainage system or facade cladding? How about adding tasteful features to roof dormers, chimneys, canopies, roof edges or other building components? RHEINZINK makes it easy. The natural material is absolutely beautiful, ecological and offers protection for generations to come. Thanks to the exceptional processing properties and superb skills of the sheet metal and roofing trades, your ideas can be implemented cost-

effectively, securely and durably with RHEINZINK. You have the choice between the product ranges RHEINZINK-CLASSIC, RHEINZINK-prePATINA and RHEINZINK-artCOLOR. If you decide to go with prePATINA blue-grey or rather graphite-grey, you'll have the elegant look of a finished zinc patina from day one, without having to compromise the positive properties of a natural surface. When will RHEINZINK become a cornerstone in your life?

RHEINZINK is a Material that will last for Generations!  
Timeless Beauty – not short-lived Trends.

One of the most satisfying things about being a home-owner is the privilege to express one's individuality through architecture. This is best achieved independent of passing trends or fads. Using a timeless material such as RHEINZINK is also a contributing factor.

The roof provides protection from wind and weather and, as the most visible element of style – is an important expression of personal taste. With RHEINZINK, you are setting an example of guaranteed functionality and aesthetics for decades.

Even your children’s children will enjoy it!

Classical elegance or contemporary avant-garde: RHEINZINK roofs are stylistically flexible, of timeless beauty and blend harmoniously into every architectural environment. Not only do they strike an impression with their timeless beauty, but especially with their sustainable and economically beauty. A decision made for future generations.

RHEINZINK is more than just a Facade.  
Quality for Life. And Quality of Life.

Nothing beats the feeling of coming home – of entering into a world that reflects those things which you hold dear. Why not create a world like this for yourself?

The facade: it is the front of your home and represents your personal style. It is here that the use of trendsetting materials opens up creative design possibilities. RHEINZINK facades create buildings with character. The facade becomes an architectural calling card.

When will you realize your dream life with RHEINZINK?

Regardless of the style you choose: RHEINZINK facades have a timeless beauty; they are maintenance-free and offer secure protection for decades. Solutions for every taste are possible.

Even if you choose not to go with a RHEINZINK facade, you can use RHEINZINK to accentuate roof dormers, chimneys, canopies, balconies or gables. RHEINZINK is more than just a facade: it is a significant design element. A bit of quality of life ... and ... quality for life.

## The RHEINZINK-Roof Drainage System. Lasting Quality – Piece by Piece!

Even a roof drainage system can be beautiful – it just depends on the material. With a roof drainage system in CLASSIC bright rolled, prePATINA blue-grey or graphite-grey, the rainwater drainage itself achieves an aesthetic value. All of the over 500 products included in this system are 100% RHEINZINK. They are neither galvanized nor coated, but solid through and through. A decision made in favour of RHEINZINK, means that you will have access to a perfectly coordinated product assortment from one source. With RHEINZINK, the roof drainage system becomes an expression of architectural design. When will you decide on a 100% solution?

### More than the sum of its parts:

- 1 Halfround gutter
- 2 Eaves profile
- 3 Leaf guard
- 4 Snap-lock fixing rail/  
snap-lock bracket
- 5 Gutter stop end
- 6 Gutter corner
- 7 Plug-in gutter outlet
- 8 Extended pipe bend
- 9 Pipe bend
- 10 Universal-downpipe bracket with  
lightning conductor clip
- 11 Rainwater collector
- 12 Patented high-frequency  
welded downpipe
- 13 Cover sleeve
- 14 Standpipe

## Naturally, RHEINZINK is ecological! You are building with Nature!

Environmental compatibility and the sustainable use of building products are becoming more and more relevant. This has always been of great importance to RHEINZINK. Ecological measures are implemented right from the start: energy consumption is extremely low during raw material extraction and processing. RHEINZINK is exceptionally durable and is 100% recyclable.

Very few building materials have a comparably positive, ecological balance like RHEINZINK. After comprehensive evaluation of its entire life cycle – raw material extraction, processing, utilization and recycling – this natural material was declared an environmentally compatible building product according to DIN ISO 14025, Type III, by an independent Board of the German Institute Construc-

tion and Environment. The utilization of RHEINZINK contributes to resource conservation and thus to environmental protection. With RHEINZINK, you're building with nature.

Would you like to learn more about natural building with RHEINZINK? Give us a call! We will gladly let you know about the ecologically certified unique full-value material.

Build with trust. With a material which has proven itself both from a construction as well as an aesthetic point of view. A material that is timeless and that meets the requirements of sustainable building thanks to its extraordinary ecological balance.

## ONE BRAND – 3 PRODUCT LINES

**A perfect solution  
for every requirement**

To give you even more design freedom, we offer our material in three different product lines and in numerous finishes. You get the perfect solution for every requirement with the trusted RHEINZINK quality. All products exceed the high standards of EN 988 and the TÜV QUALITY ZINC criteria. The high level of manufacture is guaranteed by constant inspections and extensive laboratory tests. On this double page, we have summarised the characteristic features of our three product lines. On request, we will gladly send you samples of material.

## RHEINZINK-CLASSIC

**The natural material  
in its most original form**

RHEINZINK-CLASSIC is the most original of all material options. The bright rolled version has proven itself for over 50 years of application. Depending on the weather conditions, over time a typical blue-grey patina is formed on the naturally shiny metallic surface. The patina gradually becomes more and more distinctive and develops a unique surface character.

### Surface quality:

RHEINZINK-CLASSIC® bright rolled

## RHEINZINK-artCOLOR

**Unlimited design in a variety of  
colours**

RHEINZINK-artCOLOR is the coloured version for roofing and facade cladding. A durable coating allows a wide range of colours and opens up a variety of design options for architects, planners, builders and trade customers. Classically elegant, contemporary avant-garde, contrasting or tone-on-tone. If you have a special colour requirement, we will be happy to produce RHEINZINK-artCOLOR in the shade of your choice.

### Surface qualities:

RHEINZINK-artCOLOR® black-grey  
RHEINZINK-artCOLOR® pure-white  
RHEINZINK-artCOLOR® pearl-gold  
RHEINZINK-artCOLOR® moss-green  
RHEINZINK-artCOLOR® nut-brown  
RHEINZINK-artCOLOR® blue  
RHEINZINK-artCOLOR® tile-red

prePATINA

### THE WORLD'S ONLY NATURALLY PRE-WEATHERED SURFACES

Only RHEINZINK has a special process in which the blue-grey or graphite-grey colour of the natural patina is achieved naturally in production. As the inventors, we called this unique pickling process "pre-weathering". Virtually imperceptible to the human eye, atmospheric influences over time create a natural protective patina that reliably protects the product. In production, any use of artificial coatings, varnishes or phosphating is avoided completely. The prePATINA line products are the only ready-made natural surfaces in the entire global zinc construction market.

Natural weathering compensates for any installation-related scratches. Only the RHEINZINK-prePATINA and the RHEINZINK-CLASSIC lines offer this self-healing effect. They are environmentally friendly and absolutely maintenance-free.

**100 % SELF-HEALING**  
**100 % MAINTENANCE-FREE**  
**Only available from RHEINZINK**

#### Surface qualities:

RHEINZINK-prePATINA® blue-grey

RHEINZINK-prePATINA® graphite-grey

Only RHEINZINK with its CLASSIC and prePATINA line  
offers three entirely natural material options made with titanium zinc!
