

Stadium Canopy

The Stadium Canopy is the latest addition to our canopy range and is an adaptation of our popular **Arbor Canopy**.

This new design features a "Stadium" shaped corrugated steel roof that has a subtle slope to the rear to divert rainwater into the aluminium drainage system.

To minimise movement the canopy utilises below ground fixings and a branching structure to secure the canopy in 8 points. The result is a highly durable canopy that can withstand strong winds and weather conditions.

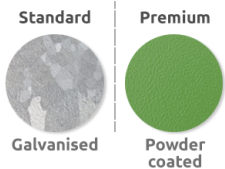

The Canopy features a vandal-resistant, fully welded frame hot-dip galvanised to BS EN ISO 1461:2009 as standard and can be polyester powder-coated in a range of RAL Colours.

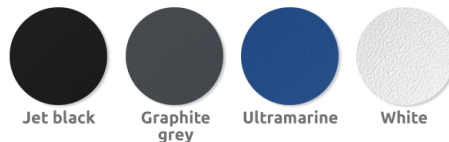

L: 8954mm x H: 3580mm x D: 3688mm

Materials, Finishes & Options

Steel
 Available in the options below;
