Insulated Tanks

Our range of WRAS approved Insulated Vertical Tanks is designed for use where temperature regulation is key and the prevention of overheating or freezing of liquids paramount. They are tough, durable, impact resistant and suitable for the storage of a wide range of liquid chemicals.

Key features:

- Closed-cell structure provides built-in vapour barrier
- Low maintenance and repair costs
- Tank jacket UV resistant for outdoor use
- Thermal conductivity value $\lambda_{40\text{ °C}} \leq 0.042 \text{ W/(m} \cdot \text{K)}$
- Minimum energy loss through low thermal conductivity
- Jacket available in 13mm, 19mm and 25mm thicknesses
- WRAS Approved Tank options available for Potable Water Storage
