

# LiquiLevel Tank Level Indicator

## EXCLUSIVE TO ENDURATANK

LiquiLevel's Tank Level Indicator is an effective mechanical method of accurately determining the level of liquid stored.

## LiquiLevel Tank Level Indicator

The Tank Level Indicator consists of a counterweight, float and level indicator all controlled by a pulley system. The float and counter weight are easily fitted into the tank and the level indicator is attached to a guide wire on the outside of the tank, simply moving up and down the wire in alignment with the level of the float inside. This gives an immediate, reliable, easy to read and accurate assessment of the content level. The LiquiLevel Tank Level Indicator can easily be fitted by anyone competent at DIY.
