

Slimline Water and Baffled Slimline Tanks

Moulded from medium density polyethylene these rectangular tanks are ideal for the commercial cleaning of bins and windows or applications requiring a water tank capable of being installed in a pickup or van. The internal baffles moulded into the tank prevent sloshing and increase stability when on the move.

Baffled Slimline Tanks

400 Litre, 500 Litre

Our range of Slimline water storage tanks are designed for space restrictive water storage and are manufactured for uses throughout the agricultural, commercial, domestic, horticultural, industrial and irrigation markets. Available in both flat or horizontal profiles, our Baffled Slimline tanks are suitable for chemical storage up to a specific gravity of 1.5.

Features

- 100% rust proof
- UK manufactured
- 2 year guarantee
- Supplied direct from stock for fast delivery
