New 100% 4turf tetraploid ryegrass • mixture for rapid renovation of worn turf, the increased chlorophyll density and greater root mass of our unique 4Turf ryegrasses optimise water and fertiliser inputs which means good looking turf, that's cheaper to maintain and better for the environment

- Fabian 4turf+ No 1 in turf grass trials and new Tetradry & Tetragame
- Very rapid establishment even under low soil temperatures (3 – 10 degrees C)
- 4turf perennial rye - No1 ranked for disease resistance in European turf trials ensures improved autumn and winter turf quality which can reduce fungicide applications
- Larger root mass for improved summer colour with exceptional drought tolerance
- Increased nitrogen use efficiency, which means lower maintenance costs and benefits the environment
- Ideal for equestrian use and sports turf demanding fast turf regeneration
- **GroMax treated, maximises seedling development**
