New Seed coat technology

| %   | Cultivar  | Species   | STRI Rating |
|-----|-----------|---|-------------|
| 25% | FABIAN    | <a href="#">4turf Tetraploid Perennial Ryegrass</a> | 6.3         |
| 25% | TETRAGAME | <a href="#">4turf Tetraploid Perennial Ryegrass</a> | 5.5         |
| 25% | BERLIOZ   | Perennial Ryegrass                                  | 7.2         |
| 25% | COLUMBINE | Perennial Ryegrass                                  | 7.4         |

## Ratings

|                |                       |
|----------------|-----------------------|
| Sowing Rate:   | 35-75g/m <sup>2</sup> |
| Oversowing:    | 10-50g/m <sup>2</sup> |
| Mowing Height: | Down to 12mm          |

- 50% 4Turf tetraploid rye ensures very rapid establishment even under low soil temperatures (3 - 10 degrees C) Ideal for Autumn overseeding program
- 4turf perennial rye - No1 ranked for disease resistance in European turf trials
- Deep rooting for summer drought tolerance and improved colour
- Highly rated diploid companion cultivar including Columbine for high shoot density and increased wear tolerance
- Ideal for equestrian use and training grounds demanding high wear tolerance or where irrigation may be restricted
