HIGH VISIBILITY CLOTHING

CORPORATE CLOTHING

EN471 - Standard for High Visibility Clothing

This standard specifies not only the amount of reflective material on the garment but also the amount and quality of the background material. The following illustrate the classifications within the standard brief.

CLASS 2

Bands of retro reflective material shall not be less than 50mm wide. Minimum background material 0.5m². Minimum retro reflective material 0.13m².

CLASS 3

Bands of retro reflective material shall not be less than 50mm wide. Minimum background material 0.8m². Minimum retro reflective material 0.2m².

Class 3 garments must be worn on any carriageway with a speed limit of 50mph or above.

WORKWEAR & SAFETY

SPECIAL HAZARD CLOTHING

Chemical Clothing

- Providing superior physical properties to traditional materials, the fabrics perform better in strength and durability tests, eliminating many of the problems associated with other fabrics and matrix contamination
- Multi-layered composite material, laminated with high specification composite films
- Distinctive colours and labelling differentiate between levels of protection
- Under the European Standards for Chemical Clothing there are various levels of protection as shown beside each product
- In the following page, garments are accordingly marked with the respective icons, shown below for each level applicable

TYPE 1
Gas-tight

TYPE 2
Non-gas-tight

TYPE 3
Liquid-tight
(jet spray test)

TYPE 4
Spray-tight
(overspray test)

TYPE 5
Particle-tight
(hazardous dust)

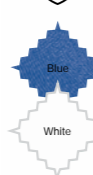

TYPE 6
Limited splash-tight
(fine overspray test)

EN1149
Antistatic

SYSTEM CPF & SYSTEM RESPONDER

SYSTEM CPF

- Complete Range of protection makes selection process easier • All System CPF garments are CE marked
- Superior strength properties reduce rip-out and tearing • High level of chemical splash resistance

SYSTEM RESPONDER

- Patented multi-layer fabric provides broadest documented chemical protection available • Limited-use garment means lower cost than elastomeric suits and allows for disposal • Seams are sewn and then heat-sealed inside and out for added strength and protection.

Please ask for details.

PPE Storage solutions

For practical, effective, cost saving storage of all PPE items supplied to staff

**C40.MS40 PPE Organisa Holdall Bag**

- Multifunctional storage solution
- Bag size • 30cm x 26cm x 60cm **Each £23.85**

The innovative PPE organisa bag

Internal storage dividers ensure safe storage for PPE items. It is a requirement to provide storage but it makes sense because it gives you two guarantees:-

- 1) **Reduced costs...** achieved by controlled storage and care. The individuals are responsible for the equipment issued. Your staff will actually use less PPE because they know where they left it, therefore eliminating ongoing costs.
- 2) **Enhanced safety impact to clients...** your clients will be impressed, your staff will be impressed. It's a positive achievement designed and proven to work exceedingly well.

"did you know that one of our customers has won the H&V safety initiative of the year 2007 awards with this bag"

**C40.BG12 Managers Rucksack**
