Designed by  
Espen Voll, Michael Olofsson, Tore Borgersen

Sol bench Sol is security furniture with a friendly face. The units are made from concrete and have a soft and inviting shape. Nevertheless, they are tough enough to stop vehicles with dangerous intent. Sol has been developed to offer brief respite, with a high seat that slopes at a comfortably gentle angle. Its solid appearance makes the bench a focal point for social gatherings in any square or street. Sol may be installed free-standing or fixed to the ground. The cover in the centre can be lifted off to reveal a spacious planter
