01. SMALL ELEMENTS AND DIMENSIONS

SMALL ELEMENTS - CHAMFER AT ONE SIDE

These are elements with one rounded side and one straight side. You can install them against walls, borders or even put them back to back to create different setups.

02. COMBINE AND CREATE

COMBINATIONS WITH SMALL ELEMENTS - CHAMFER AT ONE SIDE

By combining the different small elements you have the possibility to create what you want. Below you can find some ideas of benches, tree grates, fountains....

03. LARGE ELEMENTS AND DIMENSIONS

LARGE ELEMENTS - CHAMFER AT TWO SIDES

These are elements with two rounded sides. You can install them on a square or in a park because they are free standing.

04. COMBINE AND CREATE

EXAMPLES OF COMBINATIONS WITH LARGE ELEMENTS - CHAMFER AT TWO SIDES

When you combine the different large elements you can create what you want.
Below you can find some ideas of benches, tree grates - benches, circular benches,

05. ACCESSORIES

You can add accessories to your bench. Finish your creation by using some wooden seats. You can also use armrests for elderly people or the anti-skates to prevent damages on the benches.

06. ACCESSIBILITY & HANDLING

Perimeter is easily noticeable with white cane.
 Appropriate seat height with optional relaxing backrest. Easy to stand up thanks to back slope under seating.
 Volume is easily understandable and friendly for people with cognitive disabilities.

The elements are always handled with care using a crane during loading on the truck and during unloading on the building site.

07. COLOURS AND FINISHINGS

FERRO*

The cement skin at the surface of concrete is removed, allowing aggregates to appear. This finishing provides also a light roughness to the aggregates.

FINO*

The cement skin of the hardened concrete surface is removed by polishing with thinner and thinner grains. This allows the aggregates to show-up.

FINERRO*

The cement skin of the concrete surface is removed in a special way allowing natural aggregates to appear and providing a satin aspect to the surface. It feels like velvet.

*Indicative sample | Subject to colour and structure variations.

08 DESIGN & PROJECTS

The Centenaire bench is a creation of the Urbastyle designers team. Our team is always thinking about the users needs and experience. They create designs that are timeless and are also suitable for young and old.

The Centenaire bench has a nice and timeless design. Our designers always aim to work together with the technicians and production team to create practical and architectural concepts that embellish public spaces.

The Centenaire bench is made of elements in two sizes.

The small elements are elements that you can put against walls for example or you can also put them back to back to create freestanding elements.

The large elements are freestanding elements. They are perfect to create complex freestanding benches that you can put in the middle of an open space. You can also accessorize the Centenaire bench by adding a wooden seat, an armrest or even a wooden seat with backrest.
