Simplicity 35

**Ideal for BIG SPAN CARPORTS,
COMMERCIAL CANOPIES and WALKWAYS.**

The Simplicity 35 is our most popular carport due to its durability, versatility, and unlimited length. It is **completely constructed from aluminium**, giving you a structure with unbeatable durability together with a life expectancy of up to 25 years. This robust system is also supplied with a full 10 year guarantee.

The Simplicity 35 can be manufactured to **any length** to meet specific requirements and can **span up to 6 metres**, enabling you to cover multiple cars easily with minimum posts. It has a

modern, stylish appearance and benefits from robust integral aluminium guttering which creates an attractive finish to the structure whilst also ensuring a quick installation. Furthermore, this aluminium guttering requires minimal subsequent maintenance throughout the product's lifetime.

The Simplicity 35 system features 35mm structured polycarbonate roof panels, which are available in clear or opal and offers in excess of 98% UV protection which reduces the risk of your vehicle paintwork fading.

They can also keep the interior of your vehicles cool by creating shade and shelter, preventing unwanted heat on hot, sunny days.

The Simplicity 35 has a **variable wall pitch from 2.5° - 45°** so that you can decide on the height of the wall-plate to suit your needs – ideal for taller vehicles such as campervans and caravans. The aluminium framework, which is supplied in white as standard, can be coloured to any RAL or BS colour to match your existing window and door frames or to create an attractive contrasting effect.

A FULLY ALUMINIUM SYSTEM WITH A 6M PROJECTION AND A FULL 10 YEAR GUARANTEE

Features & Benefits

- **Full 10 Year Guarantee** and a 25 year life expectancy
- **Fully Aluminium System** – Including heavy duty structural aluminium roof bars for ultimate strength
- **Stainless Steel Fixings** – All of the fixings are 316 marine grade stainless steel for longevity and total resistance to corrosion
- **Integral Aluminium Guttering** – Saves time on installation and creates a robust and attractive gutter system
- **35mm Structured Polycarbonate with block edge finish** – A block edge finish features a hard edge on both sides of the panel, which provides a much stronger roof system for improved snow loading capabilities
- **Fire Performance** – Our polycarbonate panels benefit from excellent fire performance, meeting BS476 part 7 class 1, EN13501 and B-s1, d0
- **Robust Roof System** – The roofing system is strong enough to be walked on as a means of escape and maintenance, with the use of boards
- **High UV Protection** – A layer of UV absorber is coextruded on the outer surface of the roof panels which prevents damaging UV radiation from penetrating the sheet and protects those underneath from the sun. UV protection also prevents yellowing and loss of strength to the panel, giving it longer life
- **Wide Range of Colour Options** – The Simplicity 35 can be coloured to any RAL or BS colour, please see page 13 for details
- **Variable Roof Pitch** – The roof has a variable pitch of between 2.5° – 45°
- **Large Projection** – Projection of up to 6 metres to create large shaded areas if required
- **Unlimited Length** – This structure can be constructed to any length to suit requirements
- **Victorian Upgrade Available** – Transform the Simplicity 35 into a decorative structure with the Victorian Upgrade, please see page 12 for details
- **Infrared Heaters Available** – Add Infrared Heaters to your veranda to create a warm and cosy area underneath when socialising or dining outside in your garden, please see page 5 for details.

Information on the design load and maximum span limits is available on request.

Simplicity 35

The Simplicity 35 is also the perfect veranda or canopy for commercial settings as well as private homes.

This contemporary yet robust system has passed the ACR(M) 001:2005 Test for Non-Fragility of Profiled Sheeted Roof Assemblies and is certified as a Non-Fragile system (providing the installation conforms to span and loading charts – please contact us for more information). This glazing system must be used in conjunction with the supplied

polycarbonate to conform to wind and snow loadings for the UK.

A canopy will allow your company to offer your customers, visitors or staff a peaceful area to wait or sit under when it's hot and humid outside or alternatively, when it's rainy and windy. The Simplicity 35 is a completely waterproof structure with integral guttering, that provides full shelter from the rain and protects against over 98% of the sun's UV rays.

The Simplicity 35 is available in any RAL or BS colour to meet specific requirements.

Projection up to 6m

PROVIDE EFFECTIVE COVER FROM THE ELEMENTS WITH THE SIMPLICITY 35

The Victorian Upgrade

The Simplicity 35 carport and canopy system is available with the Victorian Upgrade which transforms it from a contemporary canopy into a stylish, vintage structure.

This elegant upgrade creates the ultimate high class finish to your canopy or carport and is ideal for period buildings and houses, enhancing the exterior, adding extra character and enabling the structure to fit in with your building or home as if it was built at the same time. It can also offer a unique contrast for more modern style buildings too.

The Victorian Upgrade package comprises moulded aluminium decorative post sleeves, feet and gallows brackets. It can be coloured in any RAL or BS colour to match the Simplicity 35.

Features & Benefits

- Create a unique style statement with your canopy or carport
- Perfect for more traditional style homes and buildings to enable the Simplicity 35 to blend in seamlessly
- Provides a covered area that is in keeping with traditional or historical building styles
- Can be coloured to any RAL or BS colour code.

Infrared Wall Mounted Heaters

Create a warm and cosy atmosphere under your carport or canopy with our Infrared Wall Mounted Heaters.

Our Infrared Wall Mounted Heaters have ceramic elements that are designed to gently warm those outdoors underneath the canopy, using infrared radiation which is completely harmless and contains no ultraviolet radiation.

The high quality ceramic plates generate heat quickly and reach their full operating temperature within less than 10 minutes. Each unit is supplied with a two year guarantee against faulty materials from the date of purchase.

These heaters are supplied in two sizes with either 2 or 3 heated elements to create medium or large heated areas.

Size:

Available in two sizes with a choice of different power outputs:

509mm x 100mm x 166mm

Choice of power:

0.8 kW

(2x 400W quartz heater elements)

1.0 kW

(2x 500W quartz heater elements)

1.3 kW

(2x 650W quartz heater elements)

760mm x 99mm x 166mm

Choice of power:

1.5 kW

(3x 500W quartz heater elements)

1.95 kW

(3x 650W quartz heater elements)

Colour Options:

Black Ceramic Plates with a Black Body
White Ceramic Plates with a Stainless Steel Body.

Simplicity 16

Ideal for cost effective CARPORTS and GARDEN CANOPIES.

It's simple; the Simplicity 16 has been developed with speed of installation, durability and cost in mind.

Due to its clever design, the Simplicity 16 provides a durable and attractive shade and shelter solution at our most cost-effective price. It can project up to 3.5 metres and has a lightweight roofing system, making it perfect for use as a carport or veranda.

The stylish modern design gives a look that is second to none, enhancing your building's aesthetics. It also offers unbeatable structural performance, simply out performing all other carport and canopy systems pound for pound. This highly versatile canopy and carport system offers a variety of solutions for:

- Carports
- Verandas
- Smoking Shelters
- Walkway Canopies
- Covered Play Areas
- Porch Canopies
- Caravan Shelters
- And many more applications

The Benefits of using this system:

All-aluminium system: The Simplicity 16 is only manufactured from aluminium to offer exceptional longevity and easy maintenance. It also features hidden, integral guttering for a clean, modern appearance.

High speed installation: We have developed this system in partnership with one of the most prolific extrusion designers in the industry. Through his extensive expertise and using

our knowledge gained from 25 years experience, we have created the simplest fixing system possible.

Impact resistance: Some of the systems on the market today use PVC or GRP which do not have the impact resistance of polycarbonate. We only use triple wall 16mm polycarbonate sheeting to ensure that your investment lasts and has the impact resistance and the snow loading capabilities for wherever you are in the UK.

Variable Roof Pitch: Unlike the majority of roof kits, which only offer a fixed pitch, the Simplicity 16 offers a pitch range of 2.5 degrees to 22.5 degrees to give you that little bit extra.

A COST EFFECTIVE
CARPORT SYSTEM
THAT IS QUICK
AND EASY TO
INSTALL

Features & Benefits

- **Standard Lengths** – 2.5m, 3m, 3.5m, 4m, 4.5m, 5m, 5.5m, 6m. Please Note: any of the listed lengths can be joined together to create a bespoke length
- **Available Projections** – 1.5m, 2m, 2.5m, 3m, 3.5m
- **Full 10 Year Guarantee** and a 25 year Life Expectancy
- **Simple fixing system with minimal parts** - For quick and easy installation
- **Low profile** – The Simplicity 16 can be fitted in areas where height is restricted
- **Stainless Steel Fixings** – All fixings are 316 marine grade stainless steel
- **Integral Aluminium Guttering** – Saves time on installation and is also stronger than an external gutter system.
- **16mm Structured Polycarbonate Panels** – Available in a clear or opal finish
- **High UV Protection** – A layer of UV absorber is coextruded onto our roofing panels to offer high UV protection
- **Wide Range of Colour Options** – The framework can be finished to any RAL or BS colour - see page 13
- **Victorian Upgrade Available** – Enhance your structure with traditional style decorative post sleeves and gallows brackets - see page 12
- **Infrared Heaters Available** – Add Infrared Heaters to your veranda to create a warm and cosy area underneath, please see page 5 for details.

Information on the design load and maximum span limits is available on request.

Simplicity 6

Ideal for GARDEN VERANDAS and GARDEN CANOPIES.

The Simplicity 6 is a stylish veranda, canopy and carport system that is glazed with a choice of 6mm toughened glass or 6mm solid polycarbonate.

With elegant posts and optional glass roofing, this product offers you a deluxe canopy or veranda at an affordable price. By featuring the option of glass roofing, the Simplicity 6 offers improved acoustic properties – reducing the noise of rain drops during a downpour; these glass panels also provide a sparkling finish which is easy to maintain, particularly if you choose the self-cleaning glass.

All framework is constructed from durable aluminium, with the option to powder coat the structure to any RAL colour or BS colour of your choice.

The Simplicity 6 is the perfect veranda solution for domestic gardens and provides effective and stylish cover from

the weather for al fresco dining and garden parties.

With a span of up to 3.2m (3.1m for the glass option) from its supporting wall, and an unlimited length you will have a solution that can be adapted to suit your exact needs.

The Simplicity 6 comes with a full 10 year guarantee and a 25 year life expectancy, making this a real investment that you will be able to enjoy for many years to come.

A REVOLUTIONARY
AND ELEGANT
CANOPY SYSTEM
THAT'S QUICK AND
EASY TO INSTALL

Features & Benefits

- **Full 10 Year Guarantee** – The Simplicity 6 is supplied with a full 10 year guarantee and a 25 year life expectancy for the canopy frame
- **Choice of Glass or Polycarbonate** – Choose to have the Simplicity 6 covered with either 6mm solid polycarbonate, 6mm toughened glass or 6mm toughened, self-cleaning glass
- **UV Activated Self-Cleaning Glass** – The 6mm self-cleaning toughened glass has a UV activated special coating that is applied during manufacture that breaks down organic dirt which is then washed away by the rain. Only a small amount of UV is needed to activate the special coating so that your canopy remains clean even on cloudy days
- **Toughened Glass** – Both glass options are toughened during manufacturing and achieve Class 1 BS EN 12600 for impact performance
- **Polycarbonate** – The 6mm solid polycarbonate is vandal and shatter resistant
- **Low Maintenance** – All roof options are low maintenance, particularly the self-cleaning glass, which means less cleaning is required, saving you time and money
- **High Light Transmittance** – All roof options offer high light transmittance
- **Available Projections** – Up to 3.2m with a polycarbonate roof and 3.1m with a glass roof
- **Simple Fixing System with Minimal Parts** – For a simple and speedy installation
- **Low Profile** – The Simplicity 6 can be fitted in height restricted areas
- **Integral Aluminium Guttering** – Creates a sleek, modern design which is stronger than external guttering systems and saves time on installation
- **Wide Range of Colour Options** – The aluminium frame can be finished to any BS or RAL colour - see page 13
- **Victorian Upgrade** – Available with the Victorian Upgrade – see page 12
- **Infrared Heaters** - Add Wall Mounted Infrared Heaters to your veranda to create a warm and cosy atmosphere - see page 5.

Information on the design load and maximum span limits is available on request.

The Victorian Upgrade

For the Simplicity 16 and the Simplicity 6

The Simplicity 16 and 6 carport and veranda systems are available with the Victorian Upgrade which enhances these structures with ornamental post sleeves and gallows brackets.

The Victorian Upgrade will transform your carport, canopy or veranda into an ornate and beautiful shade and shelter structure that will enhance the exterior of your building.

This elegant upgrade creates the ultimate high class finish and is ideal for period buildings and houses, enhancing the exterior and adding extra character and enabling the structure to fit in with your home or building as if it was built at the same time. It can also offer a unique contrast for more modern style buildings too.

The Victorian upgrade is easy to install and can be coloured to any RAL or BS colour to match current aesthetics.

The Victorian Upgrade kit includes decorative gallows brackets and post sleeves that are made from aluminium to match the Simplicity carports and verandas and can be coloured to any RAL or BS colour.

Features & Benefits

- Create a unique style statement with your canopy or carport
- Ideal for making your carport or canopy blend in with your house style, or for creating an attractive contrast
- Can be coloured to any RAL or BS colour code.

COLOURS AND FINISHES

All of the Simplicity Series carports, canopies and verandas are supplied in white as standard, however they can be coloured to any RAL or BS paint code.

This means that we are able to match our structures to your existing colour scheme such as window and door frames, enabling our Simplicity Series to blend in with your home or building seamlessly.

As there are so many colours to choose from, our carports, canopies and verandas can also be finished in a contrasting colour so that they create an impressive and striking feature of your property.

Features & Benefits

- Create your own bespoke structure with a unique colour finish
- Match your carport or veranda to your existing window and door frames
- Wide range of colours – we can match any RAL or BS colour
- Turn your carport or veranda into a stunning feature.

Testimonial

"You were competitive in price range and specialised in veranda and canopies. There was a good choice of colours and in the end we got an exact match to the windows and door frames which is what we required."

The installation was carried out to a high standard and the installer was very professional with attention to detail and everything was left clean and tidy on completion."

The veranda has made a big difference to our property and it has created a great outside space all year around. In warm weather it's great for eating outside and to entertain and in cooler or wetter weather can still be used to sit outside in the garden with some shelter."

Domestic Customer, Essex – Simplicity 6 with Decorative Gallows Brackets.

Simplicity Alfresco

Ideal for BIG SPAN VERANDAS, GLASS ROOMS and OUTDOOR DINING CANOPIES.

The Simplicity Alfresco is the latest addition to our veranda range and with its massive 6 metre span between posts it means that your outside view is never compromised.

We have worked closely with a leading designer in the glazing industry to create an innovative and truly stunning system that will enhance and add value to your home allowing you to be sheltered and comfortable in your garden whatever the weather.

The roof can be glazed with either 8mm toughened glass or 35mm polycarbonate sheet. Glass roofing offers improved acoustic properties reducing the noise of rain during a downpour as well as providing a sparkling finish which is easy to maintain.

Our innovative all aluminium system features easy-fix clip on profiles that give a stylish and modern look. They also mean that any cabling for additional extras such as lighting, heating or even a sound system can be hidden from view with no unsightly trailing cables.

The Simplicity Alfresco is the perfect solution for creating a unique and practical outdoor space for garden parties, barbecues and all kinds of family and social events all year round.

With a span of 6 metres between posts and an unlimited length you will have a solution that can be adapted to suit your exact needs.

The Simplicity Alfresco comes with a 10 year guarantee and 25 year life expectancy, is available in any RAL or BS colour and with optional extras including lighting and heating it will be an investment that will enable you to enjoy your outdoor space to the full as well as adding value to your home.

**MASSIVE 6 METRE
SPAN BETWEEN POSTS**

Features & Benefits

- **Full 10 Year Guarantee** – The Simplicity Alfresco is supplied with a full 10 year guarantee and a 25 year life expectancy for the canopy frame
- **Choice of Glass or Polycarbonate** – Choose to have the Simplicity Alfresco covered with either 8mm toughened glass or 35mm polycarbonate
- **Toughened Glass** – the 8mm glass panels are toughened during manufacturing and achieve Class 1 BS EN 12600 for impact performance
- **Polycarbonate** – The 35mm solid polycarbonate is vandal and shatter resistant
- **Low Maintenance** – All roof options are low maintenance, particularly the glass, which means less cleaning is required, saving you time and money
- **High Light Transmittance** – All roof options offer high light transmittance
- **Available Projections** – a massive 6 metres
- **Integral Aluminium Guttering and Easy-Fix profiles** – Creates a sleek, modern design which is stronger than external guttering and also means all cabling is hidden from view
- **Wide Range of Colour Options** – The aluminium frame can be finished to any BS or RAL colour - see page 13
- **Infrared Heaters** - Add Wall Mounted Infrared Heaters to your veranda to create a warm and cosy atmosphere - see page 5.
