

Blades

The Blades Litter Bin is made of flat laser-cut vertical staves in powder coated steel, topped with a bordered metal sheet cover which features a hole in the middle for inserting waste. It includes a patent lock to remove the inner container, equipped with handles. Available in three different sizes and with a semi-round ashtray. Flat base, pre-drilled for anchors which are used to fasten to the ground.

Dimensions

H: 800mm
Dia: 460mm
