

Super Bravo

The Superbravo Litter Bin is manufactured from laser cut cylindrical metal sheet and equipped with a Snap-On waste bag support ring. Available as either a solid or "cut out" sheet design, the latter is intended to allow contents to be visible at all times. The tubular steel pole to which the litter bin is attached, is supplied with an integrated ashtray which thanks to its triangular lock, can be easily removed for cleaning and emptying operations. Pre-drilled for anchors or below ground installation.

Dimensions

H: 00mm
W: 00mm
D: 00mm
