

Flo Planter

The Flo Planter, available in four different formats, is made entirely from 2.5mm thick hot galvanised and polyester powder coated steel sheet. The lower edge is equipped with a perimeter frame and 30x5mm flat steel profile stiffening crosses, and with special fixings to adjust according to the surface slope, adjusted from the inside, all zinced and polyester powder coated in RAL 7016. Thanks to the two concave and convex forms, the elements can be placed against each other both in linear or radial layouts, to make infinite combinations. Furthermore, thanks to the special styling, 350mm wide concave or convex, timber seats can be fixed to the 1500 x 1060mm components.

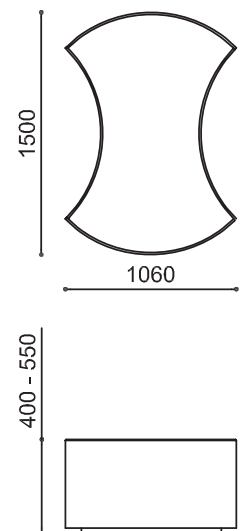

Specification:

Materials:

Body - powder coated steel

Dimensions

H: 400 - 700mm
W: 439 - 1060mm
D: 1060 - 1500mm
