

Hi-Glo Light

Hi-Glo LED lights elevate the design vocabulary for pedestrian and pathway lighting and chart new territory in lighting technology. A vertical frame rises from the light base, twists gracefully on its axis to form a shade and then flattens again as it makes its trajectory to the ground. As part of the Metro 40 range this pedestrian light offers an elevated design vocabulary. LED cartridge technology delivers energy efficiency, high performance, longevity and economy. Innovations in light colour and reduced light pollution support the circadian cycle and human health.

Specification:

Materials:
Aluminium.

Finishes:
Pangard II powder coated

Dimensions

H: 3660, 4200mm
W: 631mm
D: 893mm
Power supply: 100V-277V

artform
urban furniture
