

Parallel 42 Bench

Parallel 42 is a modular timber bench system that's much more than a piece of street furniture. Its three easy pieces provide elegantly simple building blocks for activating social space. Right and left hand modules form simple and complex configurations. Distribute them or cluster them, line them up or branch them out. Parallel 42 provides handsome seating, defines borders and frames spaces around complementary site elements.

Specification

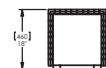

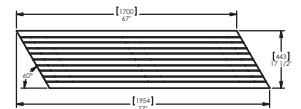

Materials

Bench - timber

Ends - powder coated steel

Dimensions

H: 460mm
W: 1700 / 1954mm
D: 443mm
