

Platinum Seat

The Platinum Seat is a modular seat available with a variety of seating positions either with or without a backrest made in laser-cut steel sheet. The seats are fixed onto a robust central steel tube closed at the ends with PVC blanking plates. The supports are in cast aluminium and are available with a choice of fixing options to the ground or wall, these are secured to the tube with special clamps made of cast aluminium. The seat comes complete with cast aluminium armrests at each end upon request you can insert additional armrests between each seat.
