

Single Fox Litter Bin

The Single Fox Litter Bin is constructed from a cylindrical structure composed of a 10mm thick galvanised steel sheet semi-circular fixed back, a 10mm thick steel sheet semi-circular door and a cast aluminium cover. Available as a wall or double version. The door is secured with a triangular key slam-lock system, and opens to allow plastic waste sacks to be removed and replaced held on the 30x3mm steel plate ring. The base is in sandblasted concrete to ensure greater stability and also offers the option to be anchored to the ground with a suitable fixing bolt. All metal parts are polyester powder coated.

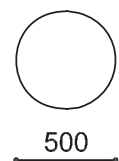

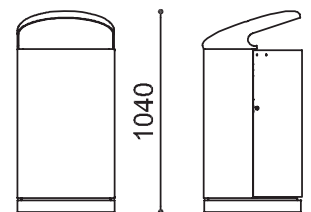

Specification:

Materials:

Body - powder coated steel

Dimensions

H: 1040mm
Dia: 500mm
