

Gus Planter

Design focus and dual function characterise planter at its versatile best. This unusual planter, in rectangular and angled versions, functions as a frame that defines space and as furniture with the simple addition of a seating option. Refined in form and detail, it enables the combination of greenery and camaraderie on a common plane. UrbanEdge is an integrated collection of landscape framing and furniture elements. It is a tool created by designers for designers that can turn dead corners into outward-oriented settings, create niches within the urban flow, and enliven social spaces in parks, community areas and shopping centres. Innovative and expressive, UrbanEdge is a new resource for reclaiming and re-imagining urban space.
