

Chiave Bike Stand

The Chiave Bike Rack is manufactured entirely from 7mm thick steel, with two key shaped pieces set side-by-side, spaced at 63mm by two stainless steel elements complete with antitheft fixings. This shape also includes an 80mm diameter hole to allow a secure place to attach a lock to secure the bicycle. The stand is available in grade 304 stainless steel or treated corten steel. Root fixed option is conducted by placing the 40mm diameter end tube, rigidly welded to the structure, into concrete foundations. Available as surface mount.

Specification:

Materials:

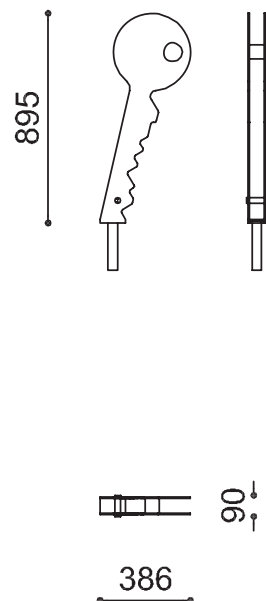

Corten Steel. Stainless Steel. Galvanised and Powder Coated Steel.

Fixings:

Ground fixing is with a 40mm diameter end tube, rigidly welded to the structure, or with base plate and bolts (not included).

Dimensions

H: 895mm
