

Icaro Notice Board

The Icaro double sided notice board is made entirely out of thick corten steel sheet, it is then sandblasted and treated with a unique oxidation cycle. The display surface, measuring 700x1000mm, is protected by two sheets of thick compact polycarbonate, fixed with special plates, alternatively a nonwatertight closing system with two 8mm thick tempered glass wings, with hinges and a locking system. The totem is complete with a front panel in square brushed stainless steel tube, with a solely aesthetic function. Also available to be manufactured in steel sheet, coated with zinc primer and polyester powder. It can be fixed to the ground with a special 6mm thick, brushed stainless steel, base block provided with a plate ready for suitable ground plugs (not included). All fixings are stainless steel.
