

## Scrambler

The Scrambler Cigarette Bin is a 120mm diameter hot galvanised tubular steel round ashtray which is painted with polyester powder which features a base plate (pre-drilled for anchors) and upper tubular stainless-steel plate. The upper plate features a series of side holes to put out cigarettes and an opening to insert cigarette butts. Thanks to the triangular lock, the plate can also be used as a container and can be easily removed for cleaning and emptying operations. Stainless steel screws.
