

Cobra

The Cobra Bench is a linear modular exotic wood seat collection, with two different supports systems which can be empty or solid leg supports manufactured from Corten or powder coated steel. The corten steel has an option to be sealed. The supports are fixed to the ground with surface or sub surface mounted anchors. the basic modules include angles, linear, curved and modular seating sections which together create unlimited seating configurations.

Dimensions

H: 453mm
 W: 1093 / 1832 / 2193mm
 D: 493 / 638 / 1093mm
