

# Hopop

Pure, simple, cylindrical forms of variable sizes and positioned at customisable heights and distances, inviting passers-by to sit, rest, play and jump! Inspired by low tree stumps the possibility of varied elements in the land and cityscape is wide and extensive.

HopOp has a textured/granulated surface due to abrasive blasting of the mould. This process enhances the friction and makes the surface comfortable and safe to use

The material is suitable for recycling.

## Specification:

### Materials:

Rotation moulded polyethylene

### Fixing:

Subsurface Mounted

## Dimensions

Dia: 350 - 500mm  
H: 950mm
