

**CellPave™ 65** heavy grade paving grids - the ideal solution for intensive car parking and HGV roadway access areas. A high strength, high specification product made in the UK.

CellPave™ 65 is capable of withstanding heavy loads, particularly when filled with gravel and will promote healthy grass growth due to the extra depth of the paver. Channel cut-outs in the wall structure of CellPave™ 65 encourage root growth and also help to drain water efficiently from the grids.

#### PRODUCT APPLICATIONS

- Access Roads
- Park & Ride
- Event Parking
- Driveways
- Reinforcement & Secure Embankments
- Emergency Access Routes
- Off-Street Parking
- Pedestrian Access
- Road Extensions & Widening
- Reinforcement System for Airstrips
- Helicopter Landing Pad
- Employee Parking

### PRODUCT FEATURES

- Designed to expand and contract in hot and cold weather conditions
- Anti-Slip Surface reinforcement with natural drainage
- Prevents gravel migration and soil erosion
- Provides improved water dispersion
- Easy installation with minimal labour
- No expensive equipment needed
- Can support a 44 ton vehicle
- Can be easily cut to size / to fit the shape desired
- Flexible interior membranes and cut outs between cells that allow the grass to grow naturally
- Anti-slip surface that can support heavy loads
- Eco-friendly car park solution with natural drainage
- Made in the UK from 100% recycled plastic and is recyclable
- Rapid installation time due to easy-fit connections

### TECHNICAL SPECIFICATIONS

<b>GRID SIZE:</b>	500mm x 500mm x 65mm
<b>WALL THICKNESS:</b>	4mm
<b>WEIGHT:</b>	Each piece is 2kg – 8kg per m2 (+/-2%)
<b>NUMBER ON PALLET:</b>	120 grids (30m <sup>2</sup> )
<b>WEIGHT PER PALLET:</b>	240kg
<b>COLOUR:</b>	Black
