Benefits of our Aluminium Range

- **5 Year manufacturers Warranty** - Giving you piece of mind
- **Highly corrosion resistant** - Aluminium can resist all weather conditions without maintenance. As all our Aluminium planters are powder coated this eliminates any dulling over time.
- **Colour choice** - We can supply our Aluminium planters in almost any RAL colour of your choice.
- **Light weight** - Aluminium has a very high strength/weight ratio enabling ease of positioning & great for use on roof terraces
- **Scratch resistant** - Tough powder coated finish resistant against scratches and chips
- **Be-spoke** - We can supply our Aluminium planters in be-spoke shapes and sizes
- **Application** - Ideal for both residential use & commercial use
- **Delivery** - Delivery is free of charge across the UK mainland

Bespoke Service

We can offer Aluminium planters in almost any shape, size & colour with our bespoke service.

Send over your requirements, and we will send you a quotation free of charge.

Our bespoke Aluminium planters feature all the same benefits as our standard range.

For any Enquiries about our bespoke Aluminium planters, please do hesitate to get in touch!!

Please call or email us to discuss your requirements.

Florida

- ▶ **The Florida** planter box is a large outdoor container suitable for residential and commercial spaces. It is made from Aluminium that is light, strong, durable and resistant to corrosion. Once built to the size you require, each planter is powder coated with a strong adhesive primer and finished with a coloured coating to ensure it is long lasting. The Florida planter is highly popular for its square design and versatility. Add some colour!!

Florida Trough

- ▶ The popular Florida trough planter is made of 3mm thick Aluminium, but it can also be crafted in 4-5mm. The traditional shape and style is suitable for a wide range of plants and trees and the modern appearance looks amazing outdoors, whether it's a garden or commercial space. To ensure high quality, the top edge of our Aluminium planters is reversed twice.

Florida With 90mm Feet

- ▶ **The Florida Aluminium planter** can be fitted with higher than standard feet to lift it further from the ground. This offers versatility for different outdoor environments whilst also changing the look of this popular metal design. Lightweight and scratch resistant, Aluminium is the perfect material for a long-lasting garden planter. The Aluminium is 3mm thick as standard and designed for quality, giving this planter a timeless and sturdy appearance.

Sydney

- ▶ The elegant Sydney Aluminium plant pot is the perfect shape for planting trees in your garden or outdoor space. Aluminium is a high quality material that is lightweight, durable and weather resistant whilst providing a modern and timeless appearance. To ensure they're long lasting outdoors, our Aluminium planters are finished with a strong adhesive primer to create a protective coating in a colour of your choice.

Cairo

- ▶ The **Cairo** garden planter is made from quality Aluminium with a round shape that will suit a range of plants, trees and flowers. The durable metal material is resistant to corrosion and is light in weight, so it can be easily re-positioned outdoors. This Aluminium planter is made with 3mm thick Aluminium as standard, but it can also be produced in 4-5mm if required. To ensure longevity outdoors, our Aluminium containers are finished with a scratch resistant coating. Any RAL colour of your choice.

Aluminium Water Tables

- Our Aluminium water tables give a real “wow factor” wherever they are placed, whether in a residential setting in the garden, or in a commercial setting in a reception area indoors or an outdoor public space. Beautifully designed and extremely well built these water tables provide an amazing visual focal point, especially in the evenings where the fountains flicker with light from the integrated LED lighting system. Can be supplied up to 6 Metres in length and in almost any RAL colour of your choice. A great conversational piece when entertaining guests.

Aluminium Waterfalls

- **Our Aluminium Waterfalls** are a great addition to any outdoor space. They add a contemporary touch and ambiance to any area they are situated and form a great focal point in a garden. As these outdoor water features are modular there are many varying options that can be specified including whether LED lighting is integrated, where and how the wall can be positioned, having a slot waterfall or a series of spouts and even choosing the RAL colour of your choice - customisation is almost endless!

Brann

- ▶ **The Brann** is a very popular choice, as it is our only gas powered burner plus it has a great contemporary touch to it. It can be used a great focal point in your garden, especially when used as a table in the middle of a seating area, where you and guests/family can enjoy a longer time outdoors and be infatuated with the flickering flames this gas fire gives. We can supply this in almost any RAL colour of your choice enabling you to add an extra personal touch to this fire. Great if you would like to match existing colours or themes within your garden, or would like to use it as a striking centre piece.
