

ROBUST Litter bin

KRO4

The picture is only illustrative, it may not exactly match the product described.

Product description

The body of the litter bin is made up of galvanized steel structure treated with powder coating. The construction is made of steel flame-cut parts 4 and 6 mm thick and coarse stretched metal sheet. Inside of the litter bin there is a removable polypropylene container 5 mm thick with a volume of 60 litres. A lockable lid with a hole for trash protects an inner polypropylene removable container.

Material

Construction: steel grade 11
