seating made better

sports & stadium seating collection

welcome

Since Ferco's inception in 1983 our desire to be clients' partner of choice has been at the forefront of our philosophy. It is reflected in our commitment to friendly, professional customer service and unwavering attention to detail.

In house design and manufacture capability means we deliver design-led, world class sports seats and enables us to set trends rather than follow them.

Our state of the art facility incorporates the latest technology and manufacturing methods with rigorous quality control.

Our designers are creative problem solvers - they arrive at seating solutions that best fit your stadium or arena. We love to talk design. Aesthetics. Solutions and functionality. This is our passion. It runs through our company.

We have a network of offices in central locations all over the world. Filled with knowledgeable and friendly people. So we're equipped to deliver any seating requirement - regardless of size or location. With clients in over 60 countries we provide global reach with a personal touch.

Our dedicated regional sales teams understand local customs. They offer professional guidance and experience, and they're flexible - helping clients achieve their needs.

And we're most proud of our people. All of them live by the belief that nothing is impossible. They're here to inspire you. To help you create a space that in turn inspires and entertains your audiences.

- Design Matters.** Our designers are great at coming up with creative solutions to the most challenging briefs in addition to customising our existing products. We ensure that our designs are easy to understand yet detailed enough for manufacture commencement.
- Manufacturing.** Group products are manufactured in house at our state of the art facility incorporating the latest technology in terms of materials and construction methods. We apply best practice principles which reduce waste and increases efficiency.
- Quality Control.** We exercise total control over production, imposing a rigorous quality regime throughout the production process. All products carry a worldwide five-year manufacturer's warranty and we are ISO 9001 and ISO14001 accredited.
- Site Surveys & Project Management.** An integral part of our service is ensuring smooth running of projects. Your project will be overseen by a dedicated project manager and all of our projects team are highly skilled with experience in making, installing and servicing our products.
- Client Service.** Our mission is to be our clients' partner of choice. From first contact to completion of installation we are committed to understanding your needs and providing a professional and friendly service that exceeds your expectations in every way.

design led performance seating

We've designed, manufactured and installed seating in some of the most iconic sports venues and stadiums across the world.

With the sector's broadest range of plastic and upholstered stadium seats we are able to supply the entire stadium - from general admission to prestigious corporate boxes.

Our seats are suitable for all types of sporting venue, both indoor and out. And all seats meet British and European standards and are tested for UV resistance, fire resistance and strength and durability.

Testing is carried out not only in-house, but by real fans in some of the most hotly contested matches - attrition rates are excellent at less than 0.05% per year.

Tough, durable and aesthetically pleasing, our general admission sports seats are comfortable to sit on and are designed for heavy and consistent use.

Our padded range is supremely luxurious and has been developed to help you meet the expectation of corporate VIP clients and to maximise revenues in those areas.

Customisable with options including seat heaters and personalised or sponsorship opportunities.

Helping you to create an exciting and safe environment.

mission

exceed customer expectations
live by design
inspire a happy team

ARC Shell

Floor Mounted

Tier Mounted

Riser Mounted

These value engineered one piece seats create an ergonomic seating position within the constraints of space and budgets.

Available as either injection or blow-moulded plastic, with an extended seat depth option.

FCB-S

Floor Mounted

The basic shell seat forms the starting point of the FCB seat range.

It has a closed all around designer shell, without any sharp edges or gaps to collect dirt or rubbish.

This distinctive seat is blow moulded in durable polymer and provides comfort and durability in a depth of only 400mm.

Railseat

Developed as a way to allow fans to stand safely at domestic club matches and be seated at international and European matches.

Slim-line and compact, this unique stadium seat has been approved for use by both UEFA and FIFA for Champions League and World Cup Matches.

All over the world the RailSeat provides the solution to the problem of fans standing in areas which are fully seated, whilst ensuring MAXIMUM safety and complying with UEFA/FIFA requirement.

The design of the RailSeat allows the ground to control how much of the stadium is standing. Groundstaff are able to quickly convert the upright seat back to a sitting position.

RailSeat can also increase the number of fans accommodated; allowing up to 80% more spectators per row.
