sports & arena seating collection

# design led performance seating

We've designed, manufactured and installed seating in some of the most iconic sports venues and stadiums across the world.

With the sector's broadest range of plastic and upholstered stadium seats we are able to supply the entire stadium - from general admission to prestigious corporate boxes.

Our seats are suitable for all types of sporting venue, both indoor and out. And all seats meet British and European standards and are tested for UV resistance, fire resistance, strength and durability.

Testing is carried out not only in-house, but by real fans in some of the most hotly contested matches - attrition rates are excellent at less than 0.05% per year.

Tough, durable and aesthetically pleasing, our general admission sports seats are comfortable to sit on and are designed for heavy and consistent use.

Our padded range is supremely luxurious and has been developed to help you meet the expectation of corporate VIP clients and to maximise revenues in those areas.

Customisable with options including seat heaters and personalised or sponsorship opportunities.

Helping you to create an exciting and safe environment.

## mission

exceed customer expectations  
live by design  
inspire a happy team

seating made better

# Premium

Premium seating areas at sports stadiums are proving to be a highly lucrative revenue generating operation. As stadiums continue to expand and evolve, so does the prevalence of luxury seating – this type of seating can be found in all types of stadiums - catering for the premium sports spectator experience, as well as for other corporate events.

Ferco's premium sports seat collection offers a variety of quality seating options providing outstanding ergonomics and comfort, as well as a wide range of customizable options such as heated seat options, embroidery, cup holders and integrated technology, such as call buttons, charging ports and reserved seating signs.

Optus Stadium  
Perth, Australia

# Verona Zero Wall

Adapted for use in the most premium indoor VIP and Executive boxes, the prestigious Verona recliner provides luxurious comfort and a number of smart features.

The backrest of the Verona Zero Wall reclines into the space vacated by the seat moving forward, requiring less space than traditional recliners.

Powered by a single motor, the Verona features a back and footrest auto-return function as the seat is vacated.

It can be customised with USB charging ports, call button systems, embroidery and seat numbering and has an Easy Lift system for cleaning underneath the seats.

# Verona Lite Zero Wall

The Verona Lite Zero Wall is design for areas with more restricted space requirements.

The seat features a motorised backrest, with spectators able to recline their seat to their own requirements.

Comfortable and luxurious, the Verona Lite Zero Wall is available as single or linked seats with a shared central armrest.

It can be customised with USB charging ports, call button systems, embroidery and seat numbering and has an Easy Lift system for cleaning underneath the seats.

# Opus Glide

For venues looking for a reclining premium sports seat option without the need for electric motors, the Opus Glide is the perfect choice.

The Glide's innovative design means the seats back and seat automatically adjust the seated position according to your body movements, maintaining excellent lumbar support and sightlines of the action.

The seat is generously upholstered and has a cushioned headrest for additional comfort.

With integrated cup holders, the Opus Glide is available as a single seat or linked seats with a shared central armrest.

# Opus

A seating solution fit for indoor and outdoor VIP areas with a corporate feel, the Opus has a modern aesthetic and adjustable backrest pitch to provide optimal conditions for spectating.

Mounted on a central pedestal, the Opus' integrated cushioned headrest and generous proportions provides venues with a superior seating solution.

# Milano Zero Wall

Like its Verona cousin, the Milano Zero Wall is a luxurious motorised premium seat, that recline into the space vacated by the seat moving forward, meaning that this seat can installed directly against a wall or riser.

The Milano has a distinctive and stylish aesthetic with a generous wide backrest and seat.

The seat can be customised with seat heaters, USB charging ports and features an integrated cup holder.

Available as a single seat or linked seats with a shared central armrest.

# Milano Lite

The Milano Lite has a motorised backrest which will fit into many existing premium areas, improving audience capacity and reducing capital expenditure.

It is an indoor and outdoor recliner, suitable for VIPs and is designed to deliver superior comfort without compromising on style and function.

# Riviera

The Riviera is the Executive sport class of seating for corporate and VIP clients.

Designed to meet the requirements of the most demanding guests, the Riviera is stylish with sumptuous padding and a wide seat with a high backrest; and is suitable for both indoor and outdoor use.

Chosen by leading Premiership clubs for their Director and VIP areas, this luxurious chair enhances the sporting experience with fully customisable options including cupholders, personal or sponsorship embroidery and seat heaters.

## Arc VIP

Floor Mounted

High-end seating for discerning guests who expect only the best, the ARC VIP meets the expectation of luxury with its high back, wide seat, padded side panels and solid wooden arm-rests.

Extremely popular for Director and Corporate areas in a variety of sporting venues.

Riser Mounted

# ARC Shell

Floor Mounted

These value engineered one piece seats create an ergonomic seating position within the constraints of space and budgets.

Available as either injection or blow-moulded plastic, with an extended seat depth option.

Riser Mounted

Tier Mounted

# ARC Lite

Floor Mounted

With its signature design, the competitively priced ARC Lite series sets the benchmark for tip-up spectator seating.

The double-walled seat and backrest deliver outstanding comfort and durability, with looks that match.

The ARC Lite Plus provides the same levels of durability and function as the ARC Lite with the added benefit of a higher backrest increasing comfort levels for spectators.

Riser Mounted

ARC Lite Plus (100mm Higher back)

# ARC One

Floor Mounted

With its thickly upholstered seat and back, the ARC One sets new standards in spectator comfort.

It incorporates a silent gravity tip-up mechanism and a perforated acoustic base suitable for indoor applications.

Riser Mounted

ARC One Plus (10cm Higher back)

# ARC Max

Floor Mounted

A member of the ARC family, the ARC Max with its signature design, fully upholstered backrest and thicker seat padding, offers the maximum in comfort for the most demanding spectators.

Engineered for function as well as comfort, the ARC Max's silent gravity tip mechanism ensures continuously smooth operation.

# FCB-S

Floor Mounted

The basic shell seat forms the starting point of the FCB seat range.

It has a closed all around designer shell, without any sharp edges or gaps to collect dirt or rubbish.

This distinctive seat is blow moulded in durable polymer and provides comfort and durability in a depth of only 400mm.

Riser Mounted

Tier Mounted

# FCB-M

Floor Mounted

Riser Mounted

The M Version is the centrepiece of the FCB range with its wide contoured seat and ergonomically shaped back.

The slim folding mechanism provides maximum seatway even in the narrowest row depths and there are no finger traps on this seat.

The integrated maintenance free rotating mechanism with interior counterweight ensures a perfectly engineered fold-back.

# Railseat

Developed as a way to allow fans to stand safely at domestic club matches and be seated at international and European matches.

Slim-line and compact, this unique stadium seat has been approved for use by both UEFA and FIFA for Champions League and World Cup Matches.

All over the world the RailSeat provides the solution to the problem of fans standing in areas which are fully seated, whilst ensuring MAXIMUM safety and complying with UEFA/FIFA requirement.

The design of the RailSeat allows the ground to control how much of the stadium is standing. Groundstaff are able to quickly convert the upright seat back to a sitting position.

RailSeat can also increase the number of fans accommodated; allowing up to 80% more spectators per row.

# ARC Railseat

The Arc Railseat, like its origin; allows fans to stand safely at domestic club matches and be seated at international and European matches.

It has a slightly curved handrail design that flows with the beautiful lines of the Arc backrest.

The Arc is a tip-up seat, allowing a smooth flow of movement for spectators when coming in or out of their seat rows.

It is a double walled seat and backrest; delivering outstanding comfort and durability, with looks that match.
