

Hitherfield Children's Centre provides community and children's services and extended day care for pre-school age children in Streatham. It forms part of an ambitious plan to provide 29 children's centres across the Boroughs of Lambeth, Greenwich and Southwark.

The £1.2M project at Hitherfield was awarded to Architype whose philosophy is "to be bold and honest in the use and expression of materials, rooted in environmentally sustainable design and based on simple strong ideas"

Lang+Fulton were asked to supply **Novara-34** anti-climb fencing, adjacent to the ramp which provides wheelchair-friendly access. The 1250mm wide grating panels and 130x15mm flat bar posts with base plate fixings were specified by the architect to accommodate any potential loading to the fencing. Entrance gates were made to match with provision for intercoms.

Novara-34 anti-climb fencing:
34x100mm aperture

Architect: Architype
Main Contractor: Lakehouse
